

BUSINESS ADMINISTRATION FOR TRANSFER PROGRAM 8-Week Focused Format

Discover an exciting opportunity for academic growth with our Business Administration for Transfer Program. This dynamic 2-year Associate in Science (AS) program is designed to propel students toward student success in the world of business. As part of a close-knit cohort, you'll take on-ground, 8-week classes in the fall and spring semesters at MiraCosta College's San Elijo Campus. The journey doesn't stop there, two additional classes await you during the summer, ensuring a comprehensive and accelerated learning experience. Embrace a transformative educational adventure and set yourself on the path to a thriving business career!

How the Program Works

22 Month Program. Complete your Associate Degree for Transfer to a UC or CSU by following an established schedule of courses and avoid taking the wrong classes.

Tuesday and Thursday Classes. 8-week classes are a blend of in-person learning and online content to maximize your time on campus while freeing up the rest of your time for work, family, hobbies, etc.

Cohort Model. Students advance through the program by taking the same classes as a group to learn, work, and grow together.

Two Years of Free College. The MiraCosta Promise waives tuition and fees for fall and spring semesters for qualifying students; summer courses are not eligible. For more details, visit: <https://miracosta.edu/promise>

Benefits of the Program

More focus. Students who take 8-week classes say they like focusing on two classes at a time rather than four.

Faster pace. 8-week classes cover the same material as 16-week classes in half the time. They are meant to be efficient, with few distractions while avoiding a drop in students' energy and concentration.

Time management. Students who take 8-week classes have more time for work and family, even when taking a full load.

Supportive learning community. Cohort students collaborate with, and learn from, their peers, developing connections that can result in improved engagement, as well as a deeper knowledge of the content.

Upon completion of the Business Administration for Transfer Program, students will develop communication, critical thinking, financial analysis, and problem solving skills that will effectively prepare them for advanced study in business at the university level. The schedule is conducive for students to pursue internships through MiraCosta College's Career Center in their area of interest to gain real life experience. An Educational Plan is recommended. This program is based on CAL-GETC which is transferable to CSU & UC.
