VII. PRESENTATIONS

A. Foundation Update

Vice President of Institutional Advancement Shannon Stubblefield recapped the Office of Advancement and Foundation accomplishments over the past year and reviewed the institutional advancement structure. Educational opportunities for all is the vision of the Foundation Board. Data and outcomes demonstrate that financial support directly affects the successful completion for our students.

Stubblefield noted the Foundation budget is just over \$2M, and 66 percent of that comes from charitable contributions. This is remarkable, because 50 percent of the charitable contributions come from individuals, many of whom are staff, retirees, and board members.

With supporting students as the number one goal by raising funds that are flexible to meet the needs of students, the comprehensive campaign was launched in 2018. Since that time, 70 percent of the \$10M goal has been reached. The Foundation continues to work to close that gap and reach the goal.

B. Facilities Update

Assistant Superintendent/Vice President Tim Flood, Facilities Director Tom Macias, and Kitchell Program Manager David Dunn provided an update on the progress of the district's capital construction program. An overview of the Measure MM program status summary and our program values and budget information was provided. A total of 42 projects were approved, with 14 projects completed to date.

Tom Macias reviewed the Community Learning Center project completion list and planning status. He noted that four of the five CLC construction projects have been completed; the fifth project should be completed this spring.

Macias reviewed the project completion list and planning status for the San Elijo Campus. Of the total of 13 projects, 10 have been completed. He noted that most of the campus was touched in some way.

David Dunn provided an overview of the Oceanside Campus project completion list and planning status. Two projects have been completed, with seven active substantial construction projects currently in progress. An overview was provided of the work expected over the next six months. The final touches on the Administration Building are being done, and the Health and Wellness Hub and the new Student Services Building and the Chemistry and Biotechnology Building are well underway. The swing space trailer village is also being modified for its next occupants, and the new Arts Media construction groundbreaking is expected in February. A decision was made to replace the 3100 Building with a new building, based on limited DSA choices. This decision resulted in all three buildings needing to be new construction with a significant cost increase for the project that had not been anticipated.

The local hire and small/highly underutilized business (SHUB) enterprise contract award and value data was shared, as this has been an ongoing priority for the board. Almost 93 percent of hired firms are local, which ensures that MM expenditures benefit the local businesses and people within our community. It was noted that the small and underutilized number has gone down due to the very large types of projects we're currently working on. Subcontracts, however, are continuing to go to small businesses.

Flood shared the Measure MM and Series C bond sale synopsis. All \$455M of the bond sales have been issued. We kept our promise to ensure we stay under \$14.99 per \$100,000 of assessed value, and we sold a total of three rather than four series of bonds to leverage our capital and ramp up the number of projects simultaneously being completed. This saved taxpayers \$153M, which is great news. It was also noted that, due to our AAA rating, these bonds were highly sought after, with \$461M requests for our \$100M Series C authorization.

Cooke thanked the Administrative Services Division and Kitchell who have managed the funds and the projects in a prudent manner, especially given the extra challenges due to the escalation of costs, supply chain issues, and Covid.

Assistant Superintendent/Vice President Pescarmona reported over one million instruction hours took place this semester in a variety of modalities. Spring enrollment headcount is up 10 percent, and FTES is up almost 13 percent, so we are trending in the right direction. Students are two to one in online versus in-person classes. A survey of student preferences was administered, and more than 2,700 students responded. Of those who responded, 40 percent prefer online courses, while 40 percent want to be on campus, and 10 percent aren't sure. They have indicated they want flexibility with their classes and services. Some students from out of the area are enrolling in our online courses. We're in the process of becoming part of the California Virtual Campus Teaching College to accommodate the flexibility that students are looking for.

Cooke thanked Chris Tarman, Cindy Dudley, and Aracely Ragazzo for their work on accreditation. The ISER was submitted yesterday. Our last SLO number was 75 percent of courses assessed within the last five years, however, we hope to be at fully complete this spring as the accreditation team begins their work.

1.1 Position. District agrees to employ Herrin and Herrin agrees to be employed by District as Interim Dean of Admissions and Student Support. Herrin has the responsibilities and authority that are associated with Herrin's interim position as defined in the position description and all other duties and responsibilities as assigned or required by the Superintendent/President or designee provided that such additional duties shall be consistent with Herrin’s interim position. The Board may adopt or amend the position description for the Herrin’s interim position at any time as long as the modifications are not inconsistent with the terms of this Agreement or the Academic Administrator’s Manual. It is further agreed that Herrin is subject to reassignment in accordance with the Academic Administrator’s Manual.

1.2 Term. The term of this Agreement is one (1) year from January 9, 2023 to January 8, 2024, or until such time as the Board, by a majority vote, either (i) terminates Herrin’s interim appointment or (ii) appoints a different person to the position on an interim or permanent basis. Either party may terminate this Agreement with or without cause upon thirty (30) days written notice to the other party.

2. Salary and Benefits.

2.1 Salary. Herrin’s annual salary shall be as set forth on the Academic Administrator’s Salary Schedule that is agreed to between the District and the Academic

Regardless of the term of this Agreement, the Board may terminate this Agreement at any time prior to the date on which the term of this Agreement would have otherwise expired, without cause. In such an event, the maximum cash settlement Herrin may receive shall be equal to the monthly salary of Herrin multiplied by the number of months left on the unexpired term of this Agreement, and shall not include non-cash items, except for health benefits. The intent of this provision is to satisfy the requirements of Government Code sections 53260-53264, and this provision shall be interpreted in a manner consistent with those statutes. 6. Termination of this Agreement During its Term With Cause. Such breach of Agreement and discharge shall nullify the terms of this Agreement and Herrin shall cease to receive any form of compensation upon the effective date of termination. The term "cause" is defined as those actions, omissions, or behaviors which are detrimental to the operations of the District and/or its major instructional, student and administrative divisions, or which impair the District's mission, purpose, or objectives. 7.2. 7.3. In the event that District provides a cash settlement related to the termination of Herrin as defined in the terms of this Agreement and Herrin subsequently is convicted of a crime involving abuse of office or position covered by Government Code section 53243.4, Herrin shall fully reimburse District for any funds provided for that purpose.

There are no oral understandings, or terms and conditions not contained or referenced in this Agreement. This Agreement cannot be changed orally. It may be modified in writing by mutual agreement of the parties as set forth above. This Agreement supersedes all Board Policies, rules, regulations, handbooks or practices which are inconsistent with or in conflict with this Agreement.

9. Representations and Warranties.

Herrin represents and warrants that Herrin:

- (A) has read this Agreement and understands its provisions; and

BACKGROUND

The Nursing and Allied Health Department has received reassigned time for faculty coordinators in the following programs for a number of years: Registered Nursing, Licensed Vocational Nursing, Medical Assistant, and Certified Nursing Assistant. This reassigned time has not been formally documented in the Faculty Assembly Collective Bargaining Agreement previously. The purpose of MOU 23-02 is to document the reassigned time that has been historically allocated to the Nursing and Allied Health Department during the regular academic year and non-contractual hours allocated during the summer intersession.

With the retirement of the Associate Dean in June 2022, the Registered Nursing Program has required the appointment of a full-time RN Director to fulfill licensing requirements for the Board of Registered Nursing. The requirement of a full-time RN Director will continue until a permanent incumbent can be recruited for the Dean of Nursing and Allied Health position.

In addition, the absence of the Associate Dean has required additional workload for nursing program faculty related to clinical rotation onboarding and coordination. The district and Faculty Assembly have agreed to an allotment of hours through the 2023/24 academic year to support this additional workload for program faculty.

STATUS

The district and the Faculty Assembly have negotiated the terms and conditions of work to be performed and compensation to be paid, and agreed to a memorandum of understanding.

RECOMMENDATION

Ratify Memorandum of Understanding 23-02 between the MiraCosta Community College District and Faculty Assembly.

The RN Director shall receive 0.80 FTE of reassigned time each semester and 264 non-instructional hours in the summer for program coordination. Until the appointment of a permanent incumbent for the Dean of Nursing, Allied Health, & Wellness, the RN Director shall receive 1.0 FTE of reassigned time each semester.
- 2) There shall be two Assistant Directors. Each Assistant Director shall receive 0.20 FTE of reassigned time each semester.
- 3) There shall be one Director of the Licensed Vocational Nursing program (“LVN Director”). The LVN Director shall receive 0.30 FTE of reassigned time each semester and 132 non-instructional hours in the summer for program coordination.

BACKGROUND

The district and Classified Administrator Association reached an agreement that establishes a telework agreement. The attached Memorandum of Understanding (MOU) is not intended to change the terms of the Classified Administrator Working Conditions Manual, but is instead a one-time, non-precedent setting agreement between the parties for the 2023 calendar year.

STATUS

The district has negotiated the terms and conditions of work to be performed and compensation to be paid and agreed to the attached MOU with the Classified Administrator Association.

RECOMMENDATION

Ratify Memorandum of Understanding 23-01 between the MiraCosta Community College District and Classified Administrator Association, as stated.

MOU Between the
MiraCosta Community College District and
MiraCosta Community College District Classified Administrators Association
23-01

This Memorandum of Understanding (“MOU”) is entered into by and between the MiraCosta Community College District (hereinafter referred to as "District") and the MiraCosta Community College District Classified Administrators Association (hereinafter referred to as "the Association") (hereinafter collectively referred to as the “Parties”).

TERMS

I. . General Policy Statement

Flexible work, including flexible work schedules and telework, enables employees to achieve a more successful balance between work responsibilities and family life. Flexible work also offers several benefits to the District including higher employee morale, lower absenteeism, increased retention, increased productivity, and recruitment advantages.

The implementation of flexible work will be based on the following principles:

- A. Student-Centeredness: While pursuing the District’s mission, performing the work of the District’s commitment statement and institutional goals, flexible work is intended to support these pursuits while being student-centered.
- B. Inclusion and Equitable Access: The District values equitable access for employees to flexible work opportunities. Flexible work is arranged on an individual basis and may not be the same for each person depending on individual work positions and the needs of the District.
- C. Employees are Unique and Independent People: The District values employees, recognizing they have full lives outside of work. Flexible work assists employees by providing them with the opportunity to fulfill responsibilities, avoid daily gridlock, promote environmental sustainability, and maintain a sense of control over their work/life balance.

Flexible work may be authorized to eligible employees provided it serves the operational needs of the District in serving students based on these principles.

II. Flexible Work Schedules

The workday for full-time employees is based on an eight-hour day and a forty-hour workweek. Hours for the beginning and ending of shifts are to be established by the

superintendent/president, the division vice president, or their designee based on operational need.

Some employees may be assigned to a four-consecutive-day workweek of ten (10) hours per day (4/10), with the concurrence of the employee and all supervisors in the employee's chain of command, including the appropriate division vice president/president. The District also may establish a nine-hour-per-day, eighty-hour-per-two-week work schedule (9/80), provided the establishment of the work schedule has the concurrence of the employee and all supervisors in the employee's chain of command, including the appropriate division vice president/president. When a 9/80 work schedule is established, it shall consist of nine work days—eight nine-hour days and one eight-hour day.

Such agreements may be established on either an individual or a department-wide basis. No employee or group of employees shall be expected or required to accept a flexible workweek assignment.

III. Telework

A. Policy Statement

Teleworking is an alternate work arrangement in which an authorized employee may work from an Alternate Worksite instead of commuting to their District Worksite. Teleworking is a benefit, which the District may grant under appropriate circumstances considering the operational needs of the District and the provisions of this Policy. No employee is guaranteed the right to telework.

The decision to authorize an employee to telework is within the District's sole discretion. Not every job is eligible or adaptable to a teleworking work arrangement. There is no assurance that a teleworking arrangement can be provided or approved by the District. An employee's participation in teleworking is completely voluntary.

B. Definitions

1. **Alternate Worksite:** A designated location other than a District Worksite, usually in the employee's home, where the employee's Teleworking Agreement authorizes them to perform job duties and responsibilities.

2. **District Worksite:** The District location(s) for an employee is the location of the regular worksite for the employee's position (e.g., the place where the employee would normally work absent a Teleworking Agreement), such as the Oceanside Campus, San Elijo Campus, Community Learning Center, and/or the Technology Career Institute and North San Diego Small Business Development Center.

3. **District Owned Equipment:** Equipment including but not limited to software, hardware, electronic devices, cell phones, smart phones, tablets, laptops, computers, records, materials, furniture and/or other office equipment owned by the District, which the

District allows the employee to use at the Alternate Worksite to conduct work for the District.

4. **Telework or Teleworking:** A work arrangement where an employee performs work for the District at an Alternate Worksite one or more days per week.

C. Employment Relationship

Neither this Policy nor the Teleworking Agreement or the employee's participation in teleworking alters the duties, obligations, responsibilities, or conditions of the employee's employment with the District. Neither this Policy nor the Teleworking Agreement or the employee's participation in teleworking relieves the employee from the obligation to observe all applicable District rules, policies, and procedures and those of their department.

All existing terms and conditions of employment, including but not limited to the job/position description, salary, benefits, vacation, sick leave, and overtime remain the same as if the employee worked exclusively at their District Worksite.

The approval, denial, modification, or termination of the telework agreement is not a grievable issue.

IV. Approval Process

A. Eligibility Criteria

Permanent classified employees and administrators are eligible for participation in the teleworking program. Probationary and temporary employees are not eligible to participate unless approved by the appropriate vice president. Employees serving in a training capacity or providing a service that must be conducted on campus will not normally be approved to participate in the teleworking program on a regular, ongoing basis. This Policy does not apply to faculty.

The following classifications are not eligible to telework under this policy: Building Maintenance Mechanic, CLC Maintenance Technician, Copy Center Technician, Copy Operator, Custodian, Custodial Maintenance Worker, Custodial Supervisor, Energy Management Control Specialist, Facilities Manager, Gardener/Groundkeeper, Grounds Maintenance Specialist, Grounds Supervisor, HVAC Technician, Irrigation Specialist, Lead Building Maintenance Mechanic, Lead Custodian, Lead Groundskeeper, Lead Vehicle and Equipment Mechanic, Locker Room Safety Assistant, Warehouse/Mailroom Technician, Warehouse Supervisor, Police Communications/Records Supervisor, Police Community Services Officer, Police Dispatch/Records Technician, Police Officer, Police Sergeant, Police Services Officer, Police Support Assistant, Refuse and Recycling Worker, and Vehicle and Equipment Maintenance Assistant.

This list of positions is not exhaustive, and the District reserves the right to identify other positions that are not eligible for teleworking.

B. Employee Request to Telework

Participation in the District teleworking program should be based on the ability of the employee to perform tasks that can be completed from remote locations, such as a home

office and the supervisor's assessment of the employee's ability to complete those tasks satisfactorily. An employee who wants to telework must submit a written request to their supervisor (via email or otherwise). The employee and their direct supervisor should consider the following before submitting a formal Teleworking Agreement:

1. Job Knowledge: Does the employee have the necessary knowledge to perform the required job tasks at home or does the employee need close supervision or input from others that is only available at the office?

2. Job Characteristics: Does the job lend itself to self-directed activities? Can priorities be easily established? Can the time of the activities be managed effectively by the employee?

3. Task Scheduling: Does the individual already work alone handling information tasks such as thinking, planning, coordinating, writing, reading, analysis, teleconferencing, computer programming, word processing or data entry? Can tasks, which can be completed away from the office, be grouped and scheduled for teleworking days? Can staff meetings and conferences be grouped and scheduled for non-teleworking days or accommodated through other means (e.g., teleconferencing)?

4. Public/District Contacts: What portion of the job is devoted to face-to-face contact with other departments, students, and the public or internal staff? Can this contact be structured to allow for communication via phone or computer, or grouped into non-teleworking days, or can alternatives be established to provide this contact on teleworking days?

5. Reference Materials: What portion of the job requires the use of reference materials or resources located in the designated work site? Can these resources be easily taken home for a day or two without interfering with co-workers' job performance? Are these resources available through other means such as a computer accessible library service?

6. Use of Computers: Will response time on computer equipment used at home be fast enough to allow for required productivity? If network access is needed, does the correct connectivity exist? Has the employee completed training for and demonstrated an adequate level of skill in use of the computer and software that will be used for teleworking?

7. Special Equipment: What portion of the job relies upon access to photocopiers, fax capabilities or other specialized equipment? Can access be managed to allow teleworker's needs to be met on non-teleworking days or can these needs be satisfied at a facility near the employee's teleworking office?

8. Information Security: What portion of the job uses secured or otherwise confidential information and can the integrity of that information be secured in accordance with information security policies?

The employee's supervisor and division/department head will consider all relevant factors including, but not limited to, the eligibility requirements noted in Section IV (C) below, in determining whether to grant the employee's request to telework.

C. Departmental Review Criteria

The employee's supervisor and division/department head will consider all requests to telework on an individual basis utilizing criteria that includes, but is not limited to:

1. The employee's prior work history and demonstration of work qualities and skills ideal for teleworking including, but not limited to:

- a. Self-motivated;
- b. Self-disciplined;
- c. Responsive;
- d. Organized;
- e. Productive;
- f. Honest;
- g. Satisfactory communication skills;
- h. Satisfactory time management skills;
- i. Demonstrated conscientious observance of work hours; and
- j. Demonstrated timeliness in meeting deadlines.

2. The operational needs of the employee's department, program, and the District to support the best interests of students, staff, and the campus community. This may include, but is not limited to, items such as relationship building, culture, process knowledge, etc.;

3. The ability of the employee to perform their specific job duties from a location separate from their District Worksite without diminishing the quantity or quality of the work performed based on the criteria outlined in Section IV (B) above;

4. The portability of the employee's work;

5. The ability to create a functional, reliable, and secure Alternate Worksite for the employee at a reasonable cost;

6. The risk factors associated with performing the employee's job duties from a location separate from their District Worksite;

7. The ability to measure the employee's work performance from a location separate from their District Worksite;

8. Departmental and/or program efficiency and service are not adversely affected;

9. Regular hours to meet departmental needs are maintained;

10. Undue burdens are not placed on other employees or supervisors;

11. The employee's supervisory responsibilities; and

12. The employee's need for supervision.

D. Teleworking Agreement

If the employee's supervisor and the division/department head determine that the employee is eligible to telework, the employee must enter into a Teleworking Agreement with the District. If approved, the Agreement will also be signed by the employee's supervisor, the division/department head, and the division vice president/president before the employee may telework. All Teleworking Agreements must be on file in the Human Resources department.

E. Duration of the Teleworking Agreement

The Teleworking Agreement must contain the approved duration and frequency the employee is authorized to telework under the Agreement. The duration and frequency of an employee's Teleworking Agreement will be determined by the employee's supervisor and the division/department head according to the operational needs of the District. No employee covered by this Policy shall be authorized to telework 100% of the time. Regular, on-campus presence is expected for all District employees on a weekly basis. Temporary exceptions to this requirement may be granted by the appropriate vice president.

A Teleworking Agreement must contain an approved regular and on-going schedule of days/hours of teleworking. Approval of an employee's requests to telework shall be at the sole discretion of the District and the teleworking may not commence until the employee receives written confirmation from their supervisor that the Teleworking Agreement has been approved.

A term agreement will be for up to one year, with a renewable term, but an agreement may be made for a shorter term. Renewal is not guaranteed. Employee performance, operational needs, and other circumstances will be considered by the supervisor in determining whether to renew the agreement.

In the absence of a District emergency, informal teleworking arrangements shall not be allowed. All teleworking arrangements must follow this Policy and receive prior approval.

V. Termination of Teleworking Agreement

The District may discontinue the Teleworking Agreement at any time. The District will provide the employee with ten (10) business days' advance notice unless extenuating circumstances make such notice impracticable. The District is not responsible for costs, damages, or losses associated with the termination of the Teleworking Agreement.

A. Termination of the Agreement by Manager

A supervisor may determine it is no longer in the best interest of the District to continue the teleworking arrangement and may terminate the agreement at any time by providing ten (10) business days' notice unless extenuating circumstances make such notice impracticable. For example, the arrangement results in a reduction in performance; does not enable training,

oversight, or any other supervision deemed necessary; the employee's tasks are no longer suitable for teleworking; work product, productivity, and/or accountability standards are not being met; or a short-term need or other situation arises.

B. Termination of the Agreement by Employee

An employee may seek to end the Teleworking Agreement by notifying the supervisor that they would like to discontinue teleworking. Employees are required to provide ten (10) business days' notice. The Teleworking Agreement may end sooner if both supervisor and employee agree.

VI. Work Schedule

A. Work Schedule

Participation in the teleworking program does not alter the employee's work schedule or rules governing work schedule in District policies and procedures. The employee's at-home work hours must conform to the schedule approved by their supervisor and must meet the needs of the District. Employees must adhere to their assigned work schedule and perform their work duties as if they are working at their District Worksite.

B. Communication & Accessibility

Employees must be accessible via telephone, email, videoconference, and/or network access to their supervisor and other District employees while teleworking, as if working at their District Worksite. Employees agree to fulfill all duties that require them to be at their District Worksite including, but not limited to, staff meetings, department meetings or activities, collaborations with coworkers, trainings, and interactions with students, other District employees, and the public.

Employees approved for teleworking need to be available to report to campus on short notice if necessary for business operations. This may include the requirement to report to campus on a regularly scheduled remote workday. Employees may also be required to report to campus in cases where they do not have internet access, network access, or are experiencing issues that impact their ability to work remotely, such as a loss of power. The District may terminate or modify the Teleworking Agreement if an employee fails to remain accessible.

C. Scheduled Hours and Overtime

Non-exempt employees must receive written authorization from their supervisor before performing any additional work outside of their assigned schedule while teleworking. This includes working overtime, extra-time, and/or compensatory time. The District will terminate the Teleworking Agreement for any non-exempt employee who fails to secure written authorization before teleworking outside their approved and scheduled work hours.

D. Meals and Rest Breaks

Non-exempt employees must take meal and rest breaks while teleworking, just as they would if they were reporting to work at their District Worksite.

E. Leave

Employees must request sick, vacation and other leaves of absences in accordance with the teleworker's working conditions manual, District Board Policies, or Administrative Procedures before taking the leave. Teleworking cannot be used in place of any type of leave.

VII. Work Standards

Employees authorized to perform work at an Alternate Worksite must meet the same standards of professionalism, productivity, and performance expected of District employees at District campuses in terms of job responsibilities, work product, responsiveness, timeliness of assignments, and contact/communication with students, other District employees, and the public.

Employees must continue to be responsible for performance of all job responsibilities required of their position. The employee's supervisor reserves the right to assign work to the employee as necessary at any worksite. Employees must notify their supervisor promptly when unable to perform work assignments because of equipment failure or other unforeseen circumstances.

VIII. Alternate Worksite

A. Designated Workspace

The employee's designated Alternate Worksite must be quiet, free of distractions, and with reliable internet and/or wireless access. The employee must maintain the Alternate Worksite in a secure condition in order to preserve the confidentiality of District-related documents and content. The District retains the right to disapprove an employee's selection of a particular Alternate Worksite if the location is not appropriate to maintain the District's standards of professionalism.

Teleworking is not a substitute for dependent care. Employees must arrange in advance for any dependent care and other personal responsibilities to ensure that they can work at the Alternate Worksite without adversely affecting normal work duties or professionalism. Employees must be free to perform their job responsibilities during the hours their work schedule requires.

The Alternate Worksite is an extension of the District's Worksite only when used for work. All existing workplace health and safety rules, as well as all existing employment laws, rules, and policies, apply the same as they would for employees reporting to a District Worksite. The District is not responsible for any injuries to family members, visitors, or other guests at the employee's Alternate Worksite. The teleworking employee shall not have any business guests at a residence designated as an Alternate Worksite.

The District retains the right to make prearranged on-site inspections of the Alternate Worksite during scheduled work hours to ensure compliance with this Policy.

B. Equipment

1. District Owned Equipment

District Owned Equipment located at the Alternate Worksite is subject to all laws, District policies and procedures, and other restrictions related to the use of District-owned property. Only the employee working under the Teleworking Agreement may use District Owned Equipment, and this use is limited to purposes related to District business. The employee is responsible for seeing that District Owned Equipment is used properly. Refer to AP 6535, Use of District Equipment.

2. Employee Owned Equipment

Employee participation in teleworking is completely voluntary. Accordingly, the employee is responsible for the maintenance and repair of their own equipment used for teleworking. The District is not liable for damage to employee owned equipment used in teleworking or that may result from teleworking. The District is not responsible for operating costs, home maintenance, or any other incidental costs (e.g. utilities, telephone, internet, cell phone, insurance, etc.) associated with the employee's teleworking.

3. Technical Support

The District will provide technical support to teleworking employees in the same manner as it provides to all employees for District owned equipment. Employees in need of technical support must bring the equipment to their District Worksite. If the employee needs specialized technical support beyond the types of technical support normally provided by the District to all employees, the employee must purchase private technical support.

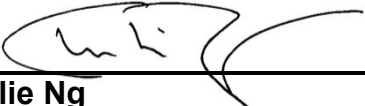

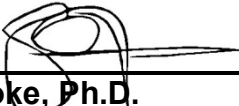

In the event of delay in repair or replacement of equipment, resolution of technical issues or any other similar circumstance making it impossible for the employee to telework, the employee must work from their District Worksite until the issue is resolved.

IX. Information Security and Recordkeeping

Employees must take reasonable precautions to ensure their devices (e.g. computers, laptops, tablets, smart phones, etc.) are secure before connecting remotely to the District's network and must close or secure all connections to District desktop or system resources (e.g. remote desktop, virtual private network connections, etc.) when not conducting work for the District. Employees must maintain adequate firewall and security protection on all such devices used to conduct District work from the Alternate Worksite.

Employees must safeguard all sensitive and confidential information (both on paper and in electronic form) relating to District work they access from the Alternate Worksite or transport from their District Worksite to the Alternate Worksite. Employees must also take reasonable precautions to prevent third parties from accessing or handling sensitive and confidential information they access from the Alternate Worksite or transport from their District Worksite to the Alternate Worksite (such as family and visitors at the employee's Alternate Worksite).

Employees may not remove confidential or sensitive information from their District Worksite. Confidential and sensitive information may not be electronically accessed, copied, downloaded or transferred to an unapproved electronic media except as permitted and authorized by established policy and procedure, as needed in the performance of legitimate work responsibilities, and with the express approval of the employee's supervisor or manager.

The workday for full-time employees is based on an eight-hour day and a forty-hour workweek. Hours for the beginning and ending of shifts are to be established by the

superintendent/president, the division vice president, or their designee based on operational need.

Some employees may be assigned to a four-consecutive-day workweek of ten (10) hours per day (4/10), with the concurrence of the employee and all supervisors in the employee's chain of command, including the appropriate division vice president/president. The District also may establish a nine-hour-per-day, eighty-hour-per-two-week work schedule (9/80), provided the establishment of the work schedule has the concurrence of the employee and all supervisors in the employee's chain of command, including the appropriate division vice president/president. When a 9/80 work schedule is established, it shall consist of nine work days—eight nine-hour days and one eight-hour day.

Such agreements may be established on either an individual or a department-wide basis. No employee or group of employees shall be expected or required to accept a flexible workweek assignment.

III. Telework

D. Policy Statement

Teleworking is an alternate work arrangement in which an authorized employee may work from an Alternate Worksite instead of commuting to their District Worksite. Teleworking is a benefit, which the District may grant under appropriate circumstances considering the operational needs of the District and the provisions of this Policy. No employee is guaranteed the right to telework.

The decision to authorize an employee to telework is within the District's sole discretion. Not every job is eligible or adaptable to a teleworking work arrangement. There is no assurance that a teleworking arrangement can be provided or approved by the District. An employee's participation in teleworking is completely voluntary.

E. Definitions

5. **Alternate Worksite:** A designated location other than a District Worksite, usually in the employee's home, where the employee's Teleworking Agreement authorizes them to perform job duties and responsibilities.

6. **District Worksite:** The District location(s) for an employee is the location of the regular worksite for the employee's position (e.g., the place where the employee would normally work absent a Teleworking Agreement), such as the Oceanside Campus, San Elijo Campus, Community Learning Center, and/or the Technology Career Institute and North San Diego Small Business Development Center.

7. **District Owned Equipment:** Equipment including but not limited to software, hardware, electronic devices, cell phones, smart phones, tablets, laptops, computers, records, materials, furniture and/or other office equipment owned by the District, which the

District allows the employee to use at the Alternate Worksite to conduct work for the District.

8. Telework or Teleworking: A work arrangement where an employee performs work for the District at an Alternate Worksite one or more days per week.

F. Employment Relationship

Neither this Policy nor the Teleworking Agreement or the employee's participation in teleworking alters the duties, obligations, responsibilities, or conditions of the employee's employment with the District. Neither this Policy nor the Teleworking Agreement or the employee's participation in teleworking relieves the employee from the obligation to observe all applicable District rules, policies, and procedures and those of their department.

All existing terms and conditions of employment, including but not limited to the job/position description, salary, benefits, vacation, sick leave, and overtime remain the same as if the employee worked exclusively at their District Worksite.

The approval, denial, modification, or termination of the telework agreement is not a grievable issue.

IV. Approval Process

F. Eligibility Criteria

Permanent classified employees and administrators are eligible for participation in the teleworking program. Probationary and temporary employees are not eligible to participate unless approved by the appropriate vice president. Employees serving in a training capacity or providing a service that must be conducted on campus will not normally be approved to participate in the teleworking program on a regular, ongoing basis. This Policy does not apply to faculty.

The following classifications are not eligible to telework under this policy: Building Maintenance Mechanic, CLC Maintenance Technician, Copy Center Technician, Copy Operator, Custodian, Custodial Maintenance Worker, Custodial Supervisor, Energy Management Control Specialist, Facilities Manager, Gardener/Groundkeeper, Grounds Maintenance Specialist, Grounds Supervisor, HVAC Technician, Irrigation Specialist, Lead Building Maintenance Mechanic, Lead Custodian, Lead Groundskeeper, Lead Vehicle and Equipment Mechanic, Locker Room Safety Assistant, Warehouse/Mailroom Technician, Warehouse Supervisor, Police Communications/Records Supervisor, Police Community Services Officer, Police Dispatch/Records Technician, Police Officer, Police Sergeant, Police Services Officer, Police Support Assistant, Refuse and Recycling Worker, and Vehicle and Equipment Maintenance Assistant. A temporary exception may be granted by the appropriate vice president (e.g., full-day trainings, workshops, or meetings conducted virtually, etc.).

This list of positions is not exhaustive, and the District reserves the right to identify other positions that are not eligible for teleworking.

G. Employee Request to Telework

Participation in the District teleworking program should be based on the ability of the employee to perform tasks that can be completed from remote locations, such as a home office and the supervisor's assessment of the employee's ability to complete those tasks satisfactorily. An employee who wants to telework must submit a written request to their supervisor (via email or otherwise). The employee and their direct supervisor should consider the following before submitting a formal Teleworking Agreement:

9. Job Knowledge: Does the employee have the necessary knowledge to perform the required job tasks at home or does the employee need close supervision or input from others that is only available at the office?

10. Job Characteristics: Does the job lend itself to self-directed activities? Can priorities be easily established? Can the time of the activities be managed effectively by the employee?

11. Task Scheduling: Does the individual already work alone handling information tasks such as thinking, planning, coordinating, writing, reading, analysis, teleconferencing, computer programming, word processing or data entry? Can tasks, which can be completed away from the office, be grouped and scheduled for teleworking days? Can staff meetings and conferences be grouped and scheduled for non-teleworking days or accommodated through other means (e.g., teleconferencing)?

12. Public/District Contacts: What portion of the job is devoted to face-to-face contact with other departments, students, and the public or internal staff? Can this contact be structured to allow for communication via phone or computer, or grouped into non-teleworking days, or can alternatives be established to provide this contact on teleworking days?

13. Reference Materials: What portion of the job requires the use of reference materials or resources located in the designated work site? Can these resources be easily taken home for a day or two without interfering with co-workers' job performance? Are these resources available through other means such as a computer accessible library service?

14. Use of Computers: Will response time on computer equipment used at home be fast enough to allow for required productivity? If network access is needed, does the correct connectivity exist? Has the employee completed training for and demonstrated an adequate level of skill in use of the computer and software that will be used for teleworking?

15. Special Equipment: What portion of the job relies upon access to photocopiers, fax capabilities or other specialized equipment? Can access be managed to allow teleworker's needs to be met on non-teleworking days or can these needs be satisfied at a facility near the employee's teleworking office?

16. Information Security: What portion of the job uses secured or otherwise confidential information and can the integrity of that information be secured in accordance with information security policies?

The employee's supervisor and division/department head will consider all relevant factors including, but not limited to, the eligibility requirements noted in Section IV (C) below, in determining whether to grant the employee's request to telework.

H. Departmental Review Criteria

The employee's supervisor and division/department head will consider all requests to telework on an individual basis utilizing criteria that includes, but is not limited to:

13. The employee's prior work history and demonstration of work qualities and skills ideal for teleworking including, but not limited to:

- k. Self-motivated;
- l. Self-disciplined;
- m. Responsive;
- n. Organized;
- o. Productive;
- p. Honest;
- q. Satisfactory communication skills;
- r. Satisfactory time management skills;
- s. Demonstrated conscientious observance of work hours; and
- t. Demonstrated timeliness in meeting deadlines.

14. The operational needs of the employee's department, program, and the District to support the best interests of students, staff, and the campus community. This may include, but is not limited to, items such as relationship building, culture, process knowledge, etc.;

15. The ability of the employee to perform their specific job duties from a location separate from their District Worksite without diminishing the quantity or quality of the work performed based on the criteria outlined in Section IV (B) above;

16. The portability of the employee's work;

17. The ability to create a functional, reliable, and secure Alternate Worksite for the employee at a reasonable cost;

18. The risk factors associated with performing the employee's job duties from a location separate from their District Worksite;

19. The ability to measure the employee's work performance from a location separate from their District Worksite;

20. Departmental and/or program efficiency and service are not adversely affected;

21. Regular hours to meet departmental needs are maintained;

22. Undue burdens are not placed on other employees or supervisors;

23. The employee's supervisory responsibilities; and

24. The employee's need for supervision.

I. Teleworking Agreement

If the employee's supervisor and the division/department head determine that the employee is eligible to telework, the employee must enter into a Teleworking Agreement with the District. If approved, the Agreement will also be signed by the employee's supervisor, the division/department head, and the division vice president/president before the employee may telework. All Teleworking Agreements must be on file in the Human Resources department.

J. Duration of the Teleworking Agreement

The Teleworking Agreement must contain the approved duration and frequency the employee is authorized to telework under the Agreement. The duration and frequency of an employee's Teleworking Agreement will be determined by the employee's supervisor and the division/department head according to the operational needs of the District. No employee covered by this Policy shall be authorized to telework 100% of the time. Regular, on-campus presence is expected for all District employees on a weekly basis. Temporary exceptions to this requirement may be granted by the appropriate vice president.

A Teleworking Agreement must contain an approved regular and on-going schedule of days/hours of teleworking. Approval of an employee's requests to telework shall be at the sole discretion of the District and the teleworking may not commence until the employee receives written confirmation from their supervisor that the Teleworking Agreement has been approved.

A term agreement will be for up to one year, with a renewable term, but an agreement may be made for a shorter term. Renewal is not guaranteed. Employee performance, operational needs, and other circumstances will be considered by the supervisor in determining whether to renew the agreement.

In the absence of a District emergency, informal teleworking arrangements shall not be allowed. All teleworking arrangements must follow this Policy and receive prior approval.

V. Termination of Teleworking Agreement

The District may discontinue the Teleworking Agreement at any time. The District will provide the employee with ten (10) business days' advance notice unless extenuating circumstances make such notice impracticable. The District is not responsible for costs, damages, or losses associated with the termination of the Teleworking Agreement.

C. Termination of the Agreement by Manager

A supervisor may determine it is no longer in the best interest of the District to continue the teleworking arrangement and may terminate the agreement at any time by providing ten (10) business days' notice unless extenuating circumstances make such notice impracticable. For example, the arrangement results in a reduction in performance; does not enable training, oversight, or any other supervision deemed necessary; the employee's tasks are no longer suitable for teleworking; work product, productivity, and/or accountability standards are not being met; or a short-term need or other situation arises.

D. Termination of the Agreement by Employee

An employee may seek to end the Teleworking Agreement by notifying the supervisor that they would like to discontinue teleworking. Employees are required to provide ten (10) business days' notice. The Teleworking Agreement may end sooner if both supervisor and employee agree.

VI. Work Schedule

F. Work Schedule

Participation in the teleworking program does not alter the employee's work schedule or rules governing work schedule in District policies and procedures. The employee's at-home work hours must conform to the schedule approved by their supervisor and must meet the needs of the District. Employees must adhere to their assigned work schedule and perform their work duties as if they are working at their District Worksite.

G. Communication & Accessibility

Employees must be accessible via telephone, email, videoconference, and/or network access to their supervisor and other District employees while teleworking, as if working at their District Worksite. Employees agree to fulfill all duties that require them to be at their District Worksite including, but not limited to, staff meetings, department meetings or activities, collaborations with coworkers, trainings, and interactions with students, other District employees, and the public.

Employees approved for teleworking need to be available to report to campus on short notice if necessary for business operations. This may include the requirement to report to campus on a regularly scheduled remote workday. Employees may also be required to report to campus in cases where they do not have internet access, network access, or are experiencing issues that impact their ability to work remotely, such as a loss of power. The District may terminate or modify the Teleworking Agreement if an employee fails to remain accessible.

H. Scheduled Hours and Overtime

Non-exempt employees must receive written authorization from their supervisor before performing any additional work outside of their assigned schedule while teleworking. This includes working overtime, extra-time, and/or compensatory time. The District will terminate

the Teleworking Agreement for any non-exempt employee who fails to secure written authorization before teleworking outside their approved and scheduled work hours.

I. Meals and Rest Breaks

Non-exempt employees must take meal and rest breaks while teleworking, just as they would if they were reporting to work at their District Worksite.

J. Leave

Employees must request sick, vacation and other leaves of absences in accordance with the teleworker's working conditions manual, District Board Policies, or Administrative Procedures before taking the leave. Teleworking cannot be used in place of any type of leave.

VII. Work Standards

Employees authorized to perform work at an Alternate Worksite must meet the same standards of professionalism, productivity, and performance expected of District employees at District campuses in terms of job responsibilities, work product, responsiveness, timeliness of assignments, and contact/communication with students, other District employees, and the public.

Employees must continue to be responsible for performance of all job responsibilities required of their position. The employee's supervisor reserves the right to assign work to the employee as necessary at any worksite. Employees must notify their supervisor promptly when unable to perform work assignments because of equipment failure or other unforeseen circumstances.

VIII. Alternate Worksite

C. Designated Workspace

The employee's designated Alternate Worksite must be quiet, free of distractions, and with reliable internet and/or wireless access. The employee must maintain the Alternate Worksite in a secure condition in order to preserve the confidentiality of District-related documents and content. The District retains the right to disapprove an employee's selection of a particular Alternate Worksite if the location is not appropriate to maintain the District's standards of professionalism.

Teleworking is not a substitute for dependent care. Employees must arrange in advance for any dependent care and other personal responsibilities to ensure that they can work at the Alternate Worksite without adversely affecting normal work duties or professionalism. Employees must be free to perform their job responsibilities during the hours their work schedule requires.

The Alternate Worksite is an extension of the District's Worksite only when used for work. All existing workplace health and safety rules, as well as all existing employment laws,

rules, and policies, apply the same as they would for employees reporting to a District Worksite. The District is not responsible for any injuries to family members, visitors, or other guests at the employee's Alternate Worksite. The teleworking employee shall not have any business guests at a residence designated as an Alternate Worksite.

The District retains the right to make prearranged on-site inspections of the Alternate Worksite during scheduled work hours to ensure compliance with this Policy.

D. Equipment

4. District Owned Equipment

District Owned Equipment located at the Alternate Worksite is subject to all laws, District policies and procedures, and other restrictions related to the use of District-owned property. Only the employee working under the Teleworking Agreement may use District Owned Equipment, and this use is limited to purposes related to District business. The employee is responsible for seeing that District Owned Equipment is used properly. Refer to AP 6535, Use of District Equipment.

5. Employee Owned Equipment

Employee participation in teleworking is completely voluntary. Accordingly, the employee is responsible for the maintenance and repair of their own equipment used for teleworking. The District is not liable for damage to employee owned equipment used in teleworking or that may result from teleworking. The District is not responsible for operating costs, home maintenance, or any other incidental costs (e.g. utilities, telephone, internet, cell phone, insurance, etc.) associated with the employee's teleworking.

6. Technical Support

The District will provide technical support to teleworking employees in the same manner as it provides to all employees for District owned equipment. Employees in need of technical support must bring the equipment to their District Worksite. If the employee needs specialized technical support beyond the types of technical support normally provided by the District to all employees, the employee must purchase private technical support.

In the event of delay in repair or replacement of equipment, resolution of technical issues or any other similar circumstance making it impossible for the employee to telework, the employee must work from their District Worksite until the issue is resolved.

IX. Information Security and Recordkeeping

Employees must take reasonable precautions to ensure their devices (e.g. computers, laptops, tablets, smart phones, etc.) are secure before connecting remotely to the District's network and must close or secure all connections to District desktop or system resources (e.g. remote desktop, virtual private network connections, etc.) when not conducting work for the District. Employees must maintain adequate firewall and security protection on all such devices used to conduct District work from the Alternate Worksite.

Employees must safeguard all sensitive and confidential information (both on paper and in electronic form) relating to District work they access from the Alternate Worksite or transport

from their District Worksite to the Alternate Worksite. Employees must also take reasonable precautions to prevent third parties from accessing or handling sensitive and confidential information they access from the Alternate Worksite or transport from their District Worksite to the Alternate Worksite (such as family and visitors at the employee's Alternate Worksite).

Employees may not remove confidential or sensitive information from their District Worksite. Confidential and sensitive information may not be electronically accessed, copied, downloaded or transferred to an unapproved electronic media except as permitted and authorized by established policy and procedure, as needed in the performance of legitimate work responsibilities, and with the express approval of the employee's supervisor or manager.

Employees must return all records, documents, and correspondence to the District at the termination of the Teleworking Agreement or upon request by any District administrator. Refer to BP 3720 Computer and Network Use.

X. Tax Consequences and Local Zoning Regulations

This Policy makes no representations regarding the tax consequences of the employee teleworking. The employee is responsible for addressing and resolving any questions about the employee's ability to deduct expenses related to teleworking. The tax implications of utilizing a home office are the responsibility of the employee.

The employee alone is responsible for conformance with any local zoning regulations.

Miscellaneous Provisions

3. All other terms and conditions of work shall be conducted in accordance with the current Classified Senate Employee Manual.
4. Unless subsequent modifications to this MOU are negotiated, this MOU will sunset on December 31, 2023.

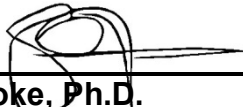

This agreement will become effective upon approval from the Board of Trustees.

BACKGROUND

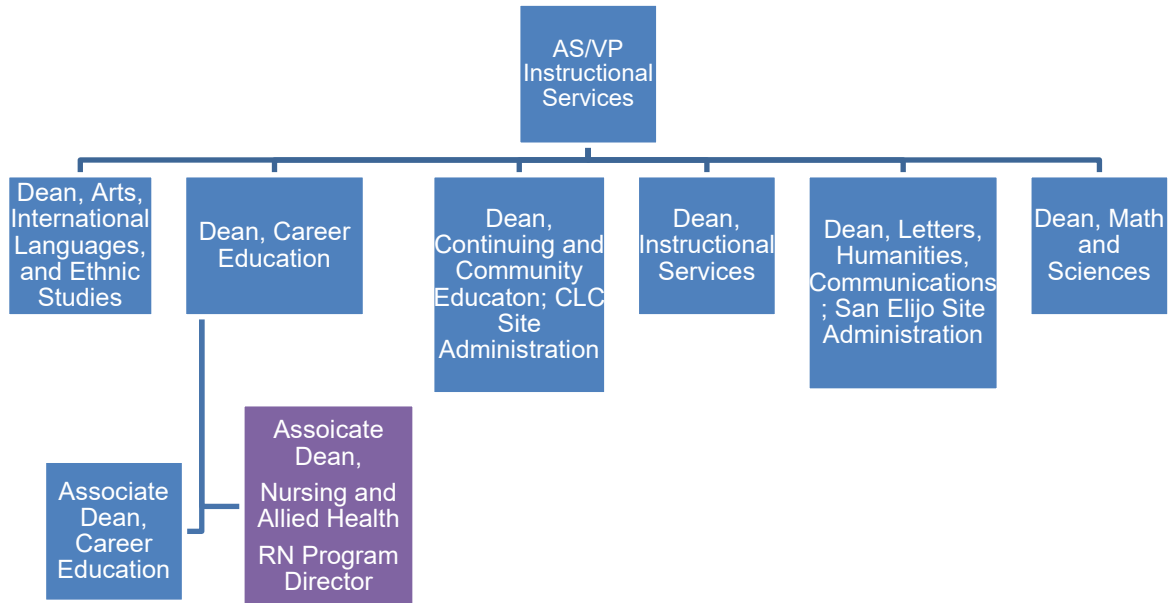

The purpose of this reorganization is to create a Dean of Nursing, Allied Health and Wellness position replacing the existing Associate Dean of Nursing and Allied Health. Upon the retirement of the associate dean, the assistant superintendent/vice president of Instructional Services and dean of Career Education met with faculty leads and staff in the area to assess the workload of the existing position and identify gaps in service. Faculty and staff identified significant changes to operations related to regional systems for clinical placement as well as significant clinical placement challenges for student’s post-pandemic. Faculty and staff also identified challenges in having an associate dean also be responsible for managing one of the many allied health programs. In review of these discussions and in consideration of the difficulties in finding and hiring Allied Health deans, the determination was made to reclassify the existing position and broaden the scope of the position. Reclassification of the position reflects the actual breadth of work and will make the position more competitive. This change will also better align to MiraCosta’s Academic and Career Pathways (ACP) and the dean will support the work of the Health Sciences ACP. Labor market indicators demonstrate supply gaps across almost all health occupations in the San Diego region, according to recent reports by the Centers of Excellence; a dean overseeing these areas would be able to help support the growth of new, in-demand academic programs as that dean would not be managing the day-to-day operations of the RN program. The new dean will also be able to support the development of the new health and wellness complex being constructed on the Oceanside campus and provide supervision of the programs that will be housed in that complex.

STATUS

The current organization for instructional services has six deans overseeing academic areas and instructional centers, with two associate deans reporting to the Dean, Career Education

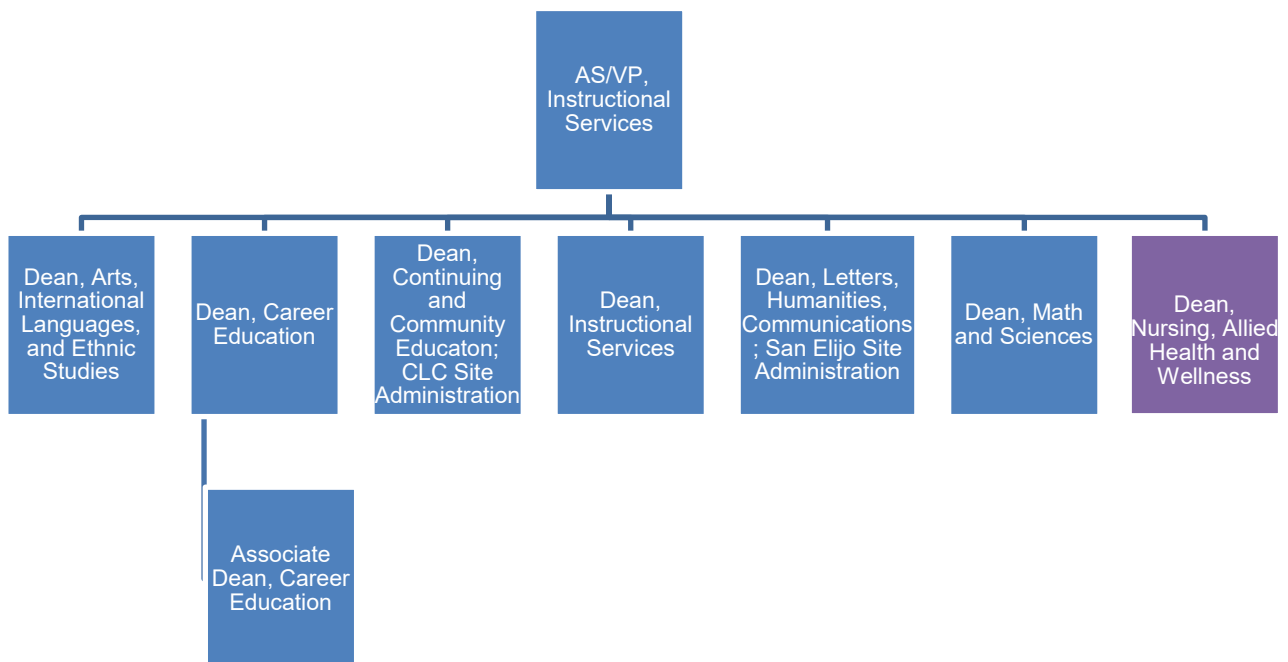

(see organization chart below). The Full Time Equivalency will remain the same, but there will be an estimated \$25,000 cost increase in salary plus \$6,575 in benefits based on the difference between associate dean to dean, per the administrator salary schedule.

CURRENT:

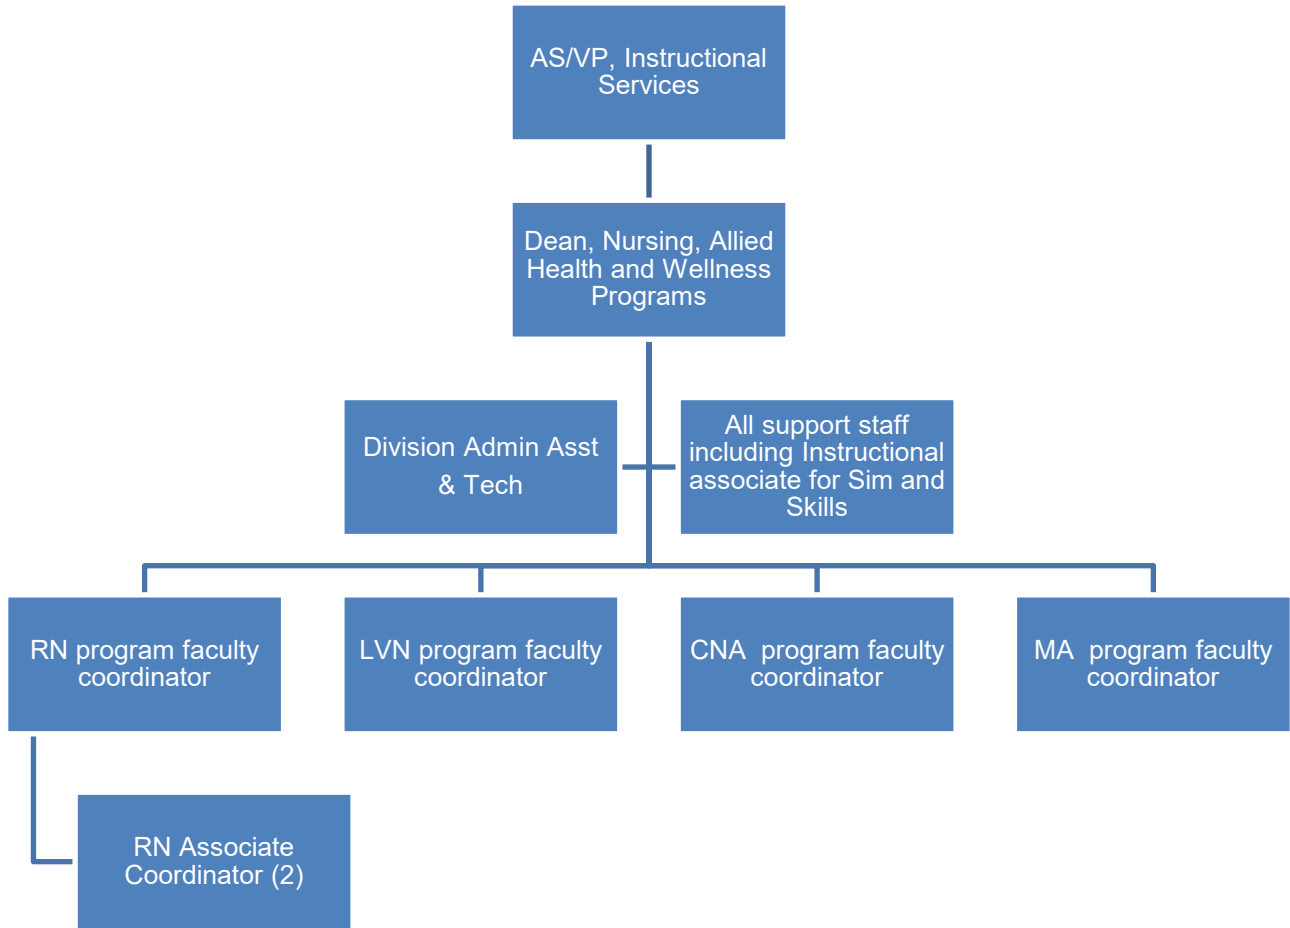

The new organization for Instructional Services will have seven deans, with one associate dean reporting to the Dean, Career Education (see organization chart below). The FTE will remain the same, but there will be a potential cost increase from moving a position from associate dean to dean as per the administrator salary schedule depending on initial salary placement.

PROPOSED:

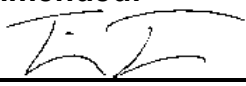

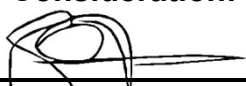

In addition to the dean position, the district has noted the difficulty of finding and hiring qualified administrators to supervise the Registered Nursing (RN) program. Given the administrative scope of the position, the recommendation is to add a new faculty reassigned time position to coordinate the RN program. The Nursing and Allied Health department already has three faculty reassigned to coordinate the regulatory requirements of the Licensed Vocational Nursing, Certified Nursing Assistant, and Medical Assistant programs. This new reassigned time coordinating position would parallel the other existing faculty leadership structures in the department.

The cost associated with the creation of this new reassignment will be based on the associate faculty cost to backfill courses of \$28,000 for the full-time faculty 15.0 LHE reassignment.

RECOMMENDATION

Approve reorganization of Instructional Services: Dean, Nursing, Allied Health and Wellness Programs; job description: Dean, Nursing, Allied Health and Wellness as stated.

BACKGROUND

The district is in the process of its routine refresh/replacement of 191 indoor wireless access points. The equipment ranges from five to seven years old, and is nearing technological “end of life” and manufacturer support. Information Technology Services (ITS) has identified new equipment that supports the latest Wi-Fi standards and increases the capacity to replace the current indoor wireless access points at the San Elijo campus, Technology Career Institute, and Oceanside campus locations. The wireless access points at the Community Learning Center were replaced 18 months ago and are therefore not included in this replacement project.

STATUS

California Public Contract Code section 20652 allows public agencies to utilize bids awarded by other public agencies (also known as “piggyback”), obtaining the same price and the same terms and conditions as the awarding agency when the awarding agency follows the statutory criteria for competitive bidding and when the pricing and terms have proven to be in the best interest of the district. The district has identified the use of Cisco NASPO ValuePoint DataCom Master Agreement #AR3227 which includes California Participation Addendum# 7-20-70-47-01 with ePlus Technology, Inc. This Agreement will provide the lowest cost and best overall value for the purchase of the new equipment.

Funds to complete this project are budgeted within the ITS department’s replacement budget. This purchase includes equipment and hardware/software maintenance with a procurement cost of \$309,398.51, including tax.

RECOMMENDATION

Authorize the director of purchasing and material management to proceed with the procurement with ePlus Technology, Inc. in accordance with the terms and conditions of Cisco NASPO ValuePoint DataCom Master Agreement #AR3227 and California Participation Addendum #7-20-70-47-01 at a cost not to exceed amount of \$309,398.51.

BACKGROUND

Board Policy 6330—Purchasing and Contracts requires, in part, that all contracts valued at more than the current bid level, as specified in Public Contract Code §20651 et seq. (calendar year 2022 = \$99,100.00), will be presented to the Board of Trustees for prior approval, but that contracts valued at less than the current Public Contract Code bid level may be presented to the board for ratification rather than prior to execution. All contracts ratified by the board shall be deemed to be fully executed district commitments and may not be subsequently cancelled, withheld or amended, unless determined by the vice president, administrative services to be a legally unenforceable obligation.

The policy also requires that no matter what the expected dollar value of a contract for legal or public auditing services, such a contract will be presented to the board for prior approval, unless it is determined by the superintendent/president and the vice president, administrative services, that time is of the essence and that the district’s best interests are best served by issuing a contract on an immediate basis. Any such contract issued under these circumstances shall be brought forward to the board for formal approval at the next board meeting.

In accordance with Public Contract Code §22000 et seq. and Board Resolutions #13-10/11 and #14-10/11, the district may procure public works using the California Uniform Public Construction Cost Accounting Act (CUPCCAA) with a current bid limit of \$200,000 for construction.

STATUS

The Purchasing and Material Management Department has attached the latest monthly summary of the contracts and purchase orders for the board’s ratification and approval as a consent item.

Inclusion, Diversity, Equity, and Accessibility (IDEA)

Wendy Stewart and Kristina Londy are participating in the Standards of Professional Practice Institute through the National Association of Diversity Officers in Higher Education as a means of embedding the standards into the work of IDEA.

The newly formed Student Success, Equity, and Guided Pathways advisory is now underway with Zhenya Lindstrom and Wendy Stewart serving as co-chairs. The advisory is made of staff, faculty, and administrators and will be working with the regional Guided Pathway leads to map progress for current equity efforts towards gaps and ensuring student success across the college.

MiraCosta’s “Year of Servingness” providing professional learning opportunities to shift the college from producing to serving Latine/Chicane students will continue throughout spring semester. MiraCostans will have an opportunity to engage in discussions around the concept of servingness and learn more about equity data for our Latine/Chicane students coupled with efforts to define and expand the college’s HSI identity on our website and across the campus.

Progress continues towards the creation of multiple Social Justice and Equity Centers providing dedicated spaces for marginalized and minoritized students with an estimated timeline to open in 2025. The centers will include spaces for Academic Success and Equity programs as well as spaces centered on student success for all Black or African American, Latine/Chicane, LGBTQIA+, Pacific Islander, undocumented and dacamented, and system impacted students. The centers represent years of advocacy from students, faculty, administrators, staff, and the community.

MiraCosta College continues work around futures-thinking with an equity focus and has teamed up with CSUSM and CSULB to create a larger futures-oriented community and open the door for cross-campus collaborations. Luke Lara and Lauren McFall will once again teach

an introductory futures class available to all MiraCosta employees to continue to embed futures-thinking concepts into the college culture.

Office of Research, Planning, and Institutional Effectiveness (RPIE)

Throughout the fall semester, RPIE has completed many projects to support Strong Workforce Program (SWP) and Career Education (CE) efforts: Updated and expanded three dashboards for the Career Technical Education Outcomes Survey, SWP labor market data, and high school articulation; pulled the data for the biennial CE program reviews and created slides for the presentation to the Board; created a dashboard map that displays locations and companies across California where our Biomanufacturing graduates are now working; and provided data and statistics that are included in marketing flyers for each of our CE program areas. The team continues to support student retention and enrollment management efforts for both credit and noncredit programs, providing student contact lists, dashboard updates, and analyses to practitioners. In support of the Equal Employment Opportunity Plan efforts and guide future hiring initiatives, RPIE analyzed 5 years of noncredit faculty demographic and employment data. RPIE continues to provide support for the College's efforts around student learning outcomes. In addition to conducting regular data analyses for Core Competencies (and updates the Core Competencies Dashboard), the office completed a new dashboard to track Course Student Learning Outcomes (CSLO) and provided technical support for faculty in inputting CSLO assessment results into Anthology (SLO software). Lastly, the Office coordinated editing, production, and submission efforts of the Institutional Self Evaluation Report.
