Reverse Logo

One-color white logo on a black or dark background. The shadows on the warrior's front face are dark and defined with a white outline.

Sports-Specific Logos

Team sports are identified with text set below the athletics logo:

*Other athletics logo configurations are available. Contact the Public Information Office.

The SPARTAN(S) logotype and warrior logomark may also be incorporated into program logos (derivative logos) that are used for inward-facing marketing, that is, marketing that is only seen while at one of the college's four sites. A derivative SPARTAN(S) program logo may not be used for external marketing such as on printed collateral or mail pieces that are distributed off-campus and may not be used on business cards.

Derivative SPARTAN(S) program logos must use the SPARTAN(S) logotype. The use of the warrior logomark is optional. Below are examples of derivative SPARTAN(S) program logos:

The SPARTAN(S) logotype and warrior logomark may not be used for general branding beyond athletics and approved program logos.

The only approved depiction of the Spartan warrior is shown on this page. No other versions—whether drawn, derived from clip art, or AI-generated—are allowed.

CO-BRANDING

MiraCosta College Branding Guide

CO-BRANDING /TEXT-BASED

To maintain consistency and professionalism, the MiraCosta College PIO will create only text-based co-branded logos for college departments and services.

This maintains the integrity of the college logo and the professionalism of departments. Department logos that are created outside of this policy will not be posted on the website nor used in official college communication.

WEB DEFAULT SYSTEM FONT

Arial is the web branded font and the only option available when designing pages. If designing an institutional page that links to the MIRA Costa College website, Arial must be used as well.

The diagram consists of two main sections, 'Headline' and 'Body', each indicated by a bracket on the left. The 'Headline' section is further divided into two columns: 'Arial, REGULAR' and 'Arial, BOLD'. Each column shows the font's appearance for uppercase and lowercase letters and numbers. The 'Body' section provides a general guideline for text size and spacing.

Headline	Arial, REGULAR ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 12345678900	Arial, BOLD ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 1234567890
	Primary body & legal copy Never allow primary body text size to go below 8 pt or above 11 pt. Kerning and leading should be kept at default settings.	

TYPOGRAPHY SIZE & COLOR FOR WEB/DIGITAL/EMAIL

It is essential that all pages of the website have a consistent look and appearance. Typography size and color standards have been developed to ensure visual consistency and proper brand standards. The use of headers is encouraged, especially to break up pages with a lot of content. Displayed here is a MiraCosta College website two-column page. The website also has a one-column option. The look of the headers vary slightly between the two options, but serve the same functions.

Heading 1 (H1)

- Only used once per page
- White text on gray bar
- Title used in your heading bar should match the title high lighted in the left-hand navigation, as well as the title you have given to your website.

Heading 2 (H2)

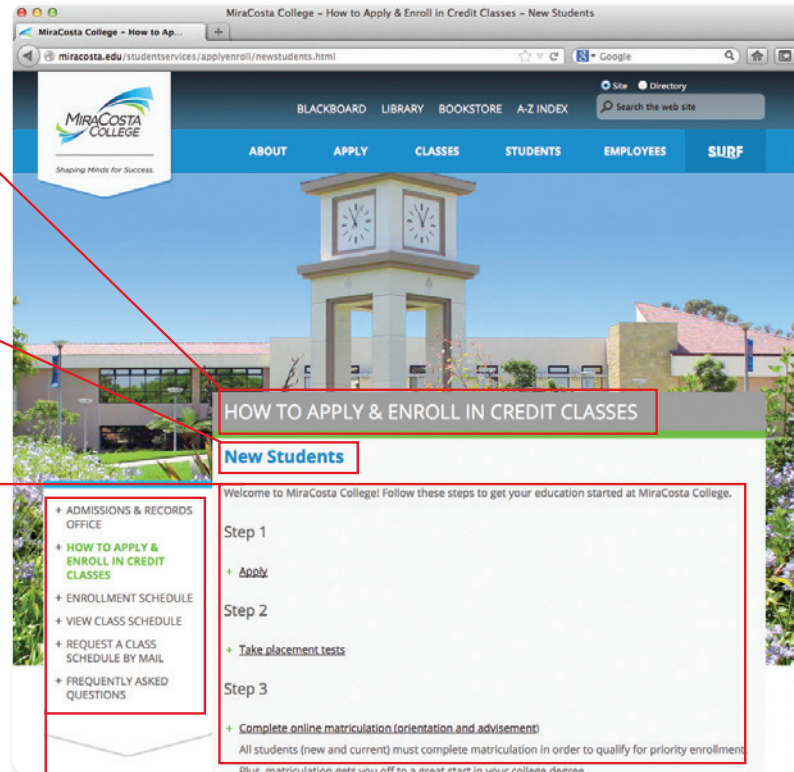

- Used as a headline to a section
- No limit to number of times used
- Blue text

Heading 3 (H3)

and

Body copy

- Used under a Heading 2
- No limit to number of times used

SIDE NAVIGATION BANNER

Try to keep your left-hand navigation column to only seven (preferably five) items. Your first item should be the department your page is housed in (counseling, student services, admissions, etc.). Your second link should be the title of the page you are currently on and should match your H1. The next links should be relevant to the page you are on and organized logically. When organizing the left-hand navigation, use Google analytics to see which pages are visited most frequently. Contact the Public Information Office for assistance with analytics.

WRITING CONSISTENCY

MiraCosta College Writing Style Guide

THE IMPORTANCE OF THIS SECTION

This writing style section has been designed to help as you prepare publications, fliers, letters and other instructional or institutional documents. Most printed materials distributed on or off campus should find their way to the Public Information Office (PIO) before distribution, giving PIO the opportunity to edit copy and collaborate with a graphic artist and/or photographer; however, not everything needs to be routed through PIO. Sometimes you are on your own.

The following pages are a collection of rules, words and writing problems with which people often wrestle, as well as terms and labels specific to MiraCosta College. The section is intended to serve as a handy writing supplement rather than as a full-length guidebook.

Why is this section important? Because MiraCosta College's printed materials communicate a message to the public, and that message can be positive if publications look sharp and are clear and grammatically correct. Campuswide consistency in writing style conveys the subtle but direct message that we know what we are doing around here—and we take pride in it.

NOTE: To those who receive or read MiraCosta College news releases

Newspapers, websites, television and radio follow different rules. For example, many print publications do not italicize or underline major works; they put them in quotation marks. Also, newspapers abbreviate more freely to save space. Thus you may notice variations from the rules presented here and in other standard writing guidebooks.
