

9/16/2014: CSIT Internships

Students interested in one of the following internship opportunities should visit the Career Center to learn more details about the internship and the steps for applying: www.miracosta.edu/careers

We are currently marketing positions that could start as early as Oct. 13th. Please look over the shortened descriptions below and I'm happy to send you a longer PDF version if you have interested students.

The Chip Merchant – San Diego – Technical Customer Service Intern - The Chip Merchant is committed to providing customers with the most leading-edge technology, services and solutions to meet or exceed their requirements. Support & Provide outstanding customer service and support over the phone and in will call area. Support tech team with computer hardware build and assembly, including desktops, servers, notebooks, and other as needed. Troubleshoot and repair customer's computer systems and install/uninstall/re-install operating systems and/or other software applications as required.

MiraCosta College Career Center – Oceanside – Social Media and Marketing Intern - The mission of the Center for Career Studies & Services is to empower students to make informed, intentional career decisions. The main responsibility of this position is to implement a social media strategy for and increase presence of a busy community college career center on multiple social media sites. The person in this role will act as both student intern and adviser to other student workers posting to the Center's social media sites so the systems will continue to be maintained after his/her internship concludes.

Ace Motorsports – Vista – Web Development Intern – Ace is a high performance road and race car company specializing in Ferrari repair/service and Race Car Fabrication/Team Management. With direction, modify, build and maintain company existing website in a Squarespace environment. Includes some social media development as well.

CONCEPT Surf Shop – Encinitas – Design Intern - Surf shop specializing in custom surfboards and design. Part of the surf shop is a full time surf school offering summer camps, after school programs, private sessions and surf coaching. Internship will include working with management on branding the business through social media, website, blogs, custom logos and design. Seeking individual with experience in different social media outlets, web design, and proficient in Adobe Illustrator. Knowledge about surfing and the surfing industry.

Social Sweet Spot – Encinitas – Video and Digital Media Production Intern – An event marketing/ social media /digital technology company. Interns will have the chance to help solve creative and technical challenges involved in developing multimedia for various environments (web, intranet, mobile devices) for clients.

Remember interns are required to have a recommendation from a faculty member in the discipline in which they are seeking the internship. They must have been enrolled in the faculty member's class and must have performed well (receiving an A or B). Guidelines for obtaining faculty recommendations vary by discipline and must go through the Career Center. Please forward any interested and qualified candidates on to me and I will follow-up with them and with you to obtain the recommendation.

Thanks for your interest in helping students gain valuable work experience,

Nina Lovejoy
