The faculty in the discipline or, if the college has no faculty member in the discipline, the faculty in the department are responsible for approving courses and establishing their associated prerequisites/corequisites as separate actions. The approval of a prerequisite or corequisite must be based on the determination that it is an appropriate and rational measure of a student's readiness to enter a degree-applicable credit course or program.

Determinations about prerequisites and corequisites shall be made only on a course-by-course or program-by-program basis, including those establishing communication and computational skill requirements (per Title 5 §55003(a) and (j), respectively).

By August 1 of each year, MiraCosta College will report to the Chancellor's Office the prerequisites and corequisites that were established during the prior academic year. The report will specify the level of scrutiny used to determine whether the prerequisites and corequisites were necessary and appropriate for achieving the purpose for which they were established (per Title 5 §55003(i)).

Courses for which prerequisites or corequisites are established will be taught by a qualified instructor and in accordance with the course outline, particularly those aspects of the course outline that are the basis for justifying the establishment of the prerequisite or corequisite (per Title 5 §55003(b)(2) and (3)).

The college shall identify prerequisites, corequisites, and advisories on recommended preparation in the college catalog, each semester's schedule of courses, and the course outline of any course for which they are established (per Title 5 §55003(h)).

**Establishing Prerequisites and Corequisites**

In order to establish a prerequisite or corequisite, the prerequisite or corequisite must be determined to be necessary and appropriate for achieving the purpose for which it is being established (per Title 5 §55003(b)(1)). Necessary and appropriate shall be understood to mean reasonably needed to achieve the purpose that it purports to serve; absolute necessity is not required (per Title 5 §55000(h)). Prerequisites and corequisites may be established only for any of the following purposes (per Title 5 §55003(d)):

A. The prerequisite or corequisite is expressly required or expressly authorized by statute or regulation.
B. The prerequisite will assure that a student has the skills, concepts, and/or information that is presupposed in terms of the course or program for which it is being established such that a student who has not met the prerequisite is highly unlikely to receive a satisfactory grade in the course (or at least one course within the program) for which the prerequisite is being established.

C. The corequisite course will assure that a student acquires the necessary skills, concepts, and/or information such that a student who has not enrolled in the corequisite is highly unlikely to receive a satisfactory grade in the course or program for which the corequisite is being established.

D. The prerequisite or corequisite is necessary to protect the health or safety of a student or the health and safety of others.

Levels of Scrutiny

The levels of scrutiny required for establishing prerequisites, corequisites, and advisories on recommended preparation are content review or content review with statistical validation (per Title 5 §55003(a)).

A. Content review is a rigorous, systematic process conducted by discipline faculty that identifies the necessary and appropriate body of knowledge or skills students need to possess prior to enrolling in a course, or that students need to acquire through simultaneous enrollment in a corequisite course (per Title 5 §55000(c)). At a minimum, content review shall include the following (per ASCCC):

1. Careful review of the course outline of record (COR) for the target course.
2. Review of syllabi, sample exams, assignments, instructional materials, and grading criteria for the target course.
3. Using the CORs of both the target and proposed prerequisite course, identification of required skills/knowledge students must have prior to enrolling in the target course and matching those skills/knowledge to the proposed prerequisite course.
4. Documentation that verifies the above steps were taken.

B. Statistical validation is a compilation of data according to sound research practices that shows a student is highly unlikely to succeed in the course unless the student has met the proposed prerequisite or corequisite (per Title 5 §55003(f)). When this level of scrutiny is used, the college shall follow the guidelines specified in Title 5 §55003(g).

Exemptions from Scrutiny

A prerequisite or corequisite shall be exempt from scrutiny if it satisfies any of the following criteria (per Title 5 §55003(e)):

A. It is required by statute or regulation, or
B. It is part of a closely related lecture-laboratory course pairing within a discipline, or

C. It is required by four-year institutions, or

D. Baccalaureate institutions will not grant credit for a course unless it has the particular communication or computation skill prerequisite.

**Curriculum Review Process**

The Courses and Programs Curriculum Committee (CPCC) Committee is responsible for the curriculum review process, and its membership is determined in a manner that is mutually agreeable to the college administration and the academic senate (per Title 5 §55002(a)(1)).

C&P reviews and approves the establishment of prerequisites, corequisites, and advisories on recommended preparation only upon the recommendation of the Academic Senate except that the academic senate may delegate this task to CPCC without forfeiting its rights or responsibilities under Title 5 §§53200-53204.

When content review is used to establish prerequisites or corequisites in reading, written expression, or mathematics for degree-applicable courses not in a sequence, CPCC will follow a plan that specifies all of the following (per Title 5 §55003(c)):

A. The method to be used to identify courses to which prerequisites might be applied.

B. Assurance that prerequisite courses, corequisite courses, and courses that do not require prerequisites or corequisites, whether basic skills or degree-applicable courses, are reasonably available.

C. Provisions for curriculum committee training.

D. The research to be used to determine the impact of new prerequisites based on content review.

**Standards for Approval of Prerequisites and Corequisites.**

CPCC will review the course outline to determine if a student would be highly unlikely to receive a satisfactory grade unless the student has knowledge or skills not taught in the course. CPCC will also review the course outline to determine if success in the course is dependent upon communication or computation skills, in which case the course shall require as prerequisites or corequisites eligibility for enrollment in associate degree credit courses in English and/or mathematics, respectively (per Title 5 §55002(a)(2)(D) and (E)). If a course requires precollegiate skills in reading, written expression, or mathematics, MiraCosta College will do the following (per Title 5 §55003(l)):

A. Ensure these courses and sections are offered with reasonable frequency

B. Monitor progress on student equity in accordance with Title 5 §54220 as follows:
1. The college will conduct an evaluation to determine if the prerequisite has a disproportionate impact on student success.

2. Where there is disproportionate impact on any group of students, the college will, in consultation with the Chancellor’s Office, develop and implement a plan setting forth the steps the district will take to correct the disproportionate impact.

Periodic Review of Prerequisites and Corequisites.

Using an appropriate level of scrutiny, MiraCosta College will review all established CTE course and program prerequisites, corequisites, and advisories every two years to ensure they remain necessary and appropriate; all other established course and program prerequisites, corequisites, and advisories will be reviewed every six years (per Title 5 §55003(b)(4)).

Challenging Corequisites and Prerequisites

Whenever a corequisite course is established, sufficient sections shall be offered to reasonably accommodate all students who are required to take the corequisite. A corequisite shall be waived when space in the corequisite course is not available (per Title 5 §55003(m)).

A student may challenge any prerequisite or corequisite by submitting a challenge form at the time of registration to the Admissions and Records Office. The student will be enrolled in the requested class if space is available. The department whose course prerequisite is being challenged will review the challenge, and the student will be notified of the department’s decision within five working days (a day during which the college is open) per Administrative Procedure 5052, Student Open Enrollment. If the challenge is denied, the student will be dropped from the class and refunded all applicable fees (per Title 5 §55003(o)).

Grounds for challenge are as follows (per Title 5 §55003(p)):

A. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.

B. The prerequisite or corequisite is in violation of Title 5 §55003.

C. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner*.

D. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.

E. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available.

* See Administrative Procedure 3435, Discrimination and Harassment Investigations.
