

# NETWORK & DESKTOP SYSTEMS ADMINISTRATION

You can train in Network and Computer Systems Administration or Desktop Support. The Certificate of Achievement in Network and Desktop Systems Administration can be completed in as little as two semesters and is a base for an Associate in Arts Degree. MiraCosta College instructors have classroom and industry experience so you get the best of both: expert teaching and real-world knowledge.

Students may choose to earn one or more of the following certificates, work toward an associate degree, or complete requirements to transfer. For more information about each certificate and the associate degree, please consult the MiraCosta College catalog at [catalog.miracosta.edu/disciplines/computerstudiesandinformationtechnology](http://catalog.miracosta.edu/disciplines/computerstudiesandinformationtechnology).

### Certificates of Achievement

#### Network & Desktop Systems Administration **20 units**

This certificate is designed to meet the demand in the business community for individuals trained in computer networking, network administration, computer security, desktop support, enterprise networking, and Internet or intranet administration.

#### Certified Computer Desktop Support Specialist **23 units**

This certificate is designed to meet the demand in industry for individuals trained to support desktop computer users.

### Associate in Arts Degree

MiraCosta College's Computer Network Administrator Program offers the following Associate in Arts degree:

#### Network & Desktop Systems Administration

## RELATED CERTIFICATES & PROGRAMS

### Certificate of Achievement

#### E-Commerce

**21-23 units**

The E-Commerce Certificate is designed for individuals interested in exploring the process of conducting business on the Internet and related design and technical considerations. Students are advised to enroll in CSIT 146 prior to selecting electives.

### MiraCosta College Cisco Networking Academy

A related and valuable training in Cisco Networking.

The Cisco Networking Academy offers CCENT, CCNA and CCNP training courses that prepare students for Information Technology (IT) industry employment certifications. The Academy program offers conceptual and practical skills-based training to prepare students for employment in the IT industry. Check it out at [miracosta.edu/cisco](http://miracosta.edu/cisco).

*"I took all the possible networking courses I could. I really liked the equipment we had, which included all the necessary software programs and served to simulate a real-life environment."*

**—Roumiana Rabinowitz, MiraCosta College graduate and current system administrator**

## PREPARE FOR A GREAT CAREER!

According to the U.S. department of Labor, Information Technology occupations are projected to be among the fastest growing through 2018. Those who want a competitive edge in the job market turn to MiraCosta College for its excellent computer network training and certification programs.
