English Language Institute • Enrichment

Excursions • Work Skills Training
The English Language Institute (ELI) offers international students the opportunity to increase their English language proficiency and develop the skills needed to succeed at a college or university in the United States. This eight-week intensive English as a second language program provides individualized instruction in small class sizes. The program is designed for students with a minimum of one year of English language training at high school or college level. This class may not be appropriate for advanced ESL students or students with a TOEFL score greater than 500 paper-based or 46 IBT. Students must be at least 18 years old or meet our minor policy requirements. Our International Student Office will issue 1-20’s. We accept students with an F1 or B visitor visa or any visa where “enrichment” or “study” is permissible.

Instructional components include:

- TOEFL preparation
- Study of American culture
- Computer literacy development of study skills
- Integrated academic preparation in reading, writing, listening, speaking and grammar.

Fee: $1,895 (includes instruction, application fee, books and student services.) Health insurance is an optional fee of $365. Students must purchase our insurance plan or purchase their own insurance plan that meets our requirements (Fees subject to change.)

Getting Started with Your dSLR

In this workshop, you will learn how to set up your camera to optimize the quality of your photographs. We will cover important topics of white balance and ISO, allowing you to shoot under difficult conditions. Additionally, we will learn about the little icons on your shooting dial. After you have completed this class, you’ll be able to take pictures right away!

Fee: $57
Supplies: A $3 materials fee will be collected in class. Please bring your camera and manual to class.
Instructor: Terry Matsuoka
Location: Oceanside Campus, Room 3201
Time: 1 Tuesday, 7/30, 6:30–8:30 PM
Location: San Elijo Campus, Room 606
Time: 1 Wednesday, 7/31, 6:30–8:30 PM

From Good to Great Photos: Understanding Aperture and Shutter Speed

Even if you didn’t realize it, this is probably why you bought your dSLR in the first place. Aperture and shutter speed can be daunting concepts to understand on your own. Once you master these aspects of photography, it’s what is going to separate your pictures from the rest. We will also take a look at some of the pictures you took after your first session for constructive evaluation. After this class, you’ll be able to practice depth-of-field and capture motion and time.

Fee: $57
Supplies: A $3 materials fee will be collected in class. Please bring your camera and manual to class.
Instructor: Terry Matsuoka
Location: Oceanside Campus, Room 3201
Time: 1 Tuesday, 8/6, 6:30–8:30 PM
Location: San Elijo Campus, Room 606
Time: 1 Wednesday, 8/14, 6:30–8:30 PM

Making Shooting Perfect Pictures Easy

The primary strategy for achieving great pictures is proper lighting, no matter what kind of camera you have. To make getting that perfect shot easy, we will cover lens focal length, exposure compensation, bracketing, auto focus points and flash. You will be surprised at how advanced you become after this class.

Fee: $57
Supplies: A $3 materials fee will be collected in class. Please bring your camera and manual to class.
Instructor: Terry Matsuoka
Location: Oceanside Campus, Room 3201
Time: 1 Tuesday, 8/13, 6:30–8:30 PM
Location: San Elijo Campus, Room 606
Time: 1 Wednesday, 8/14, 6:30–8:30 PM

Introductory digital SLR photography series can be taken as individual courses for $57, or together for only $135!

The photography topics are interrelated and affect one another, so we recommend you take all three (Getting Started with Your dSLR, Aperture and Shutter Speed and Making Shooting Perfect Pictures Easy) to get a complete understanding of the camera and picture-taking.
Become a Notary Public the Smart Way in One Day!

Making more money is always a great idea and shows your amazing initiative! Establish yourself as a notary public, earn additional income and provide a service to your community. Notary skills are valuable in almost any industry: real estate, legal, medical and banking to name just a few. This six-hour state-approved seminar gives you the knowledge to pass the notary exam and practice as an effective notary. The class will focus on new legislation, passing the test (must be taken every four years), how to identify document signers, keeping a journal, completing certificates properly and how to avoid lawsuits. After becoming a notary, train to become a loan signing agent and make $200 to $400 per signing. You will be a part of a rewarding and lasting career. Must be at least 18 years old and have a clean criminal record.

Note: You are automatically registered for the official state exam directly following the seminar. See box to the right regarding the notary test.

Due to state regulations, no one will be admitted to the classroom after 8:30 AM. In addition, you must be on time when returning to the classroom from all breaks. Refunds will not be issued.

Fee: $99
Supplies: A $35 materials fee (cash or check *) will be collected in class.
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3201
Time: 1 Saturday, 7/27, 8 AM–6 PM

Renewing Notaries

Need to renew your notary commission? We’ll feature the new state laws and give you a brush-up on general law to make sure you haven’t fallen into any bad habits. Your commission must be current to be eligible for the three-hour seminar. Renewing notaries must take the exam and submit Live Scan fingerprints again. Option: the six-hour notary public education course satisfies the requirement for a three-hour refresher course.

Note: You are automatically registered for the official state exam directly following the seminar. See box to the right regarding the notary test.

Due to state regulations, no one will be admitted to the classroom after 8:30 AM. In addition, you must be on time when returning to the classroom from all breaks. Refunds will not be issued.

Become a Loan-Signing Agent—Certificate Awarded

In this one day workshop, the expert instructors at Notary Public Seminars will teach you how to brand yourself as a professional in the market and provide you with a simple strategy to launch your new business. Loan signing Agencies are hiring and many require that you have a certificate. Additionally, you will learn how to notarize a loan package from any bank, negotiate your signing fee, get repeat business, what you should and should not discuss with your clients and how to get signed up with busy signing agencies.

Prerequisite: Must be a notary public or have taken a notary class.

Fee: $99
Supplies: A $40 materials fee and a $20 certificate fee (optional) will be collected in class by cash or check.*
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3201
Time: 1 Saturday, 8/3, 10 AM–4 PM

For regular notaries, renewing notaries and those taking just the test, Cooperative Personnel Service will register you for the exam from 3:45–4:45 PM. The exam will be from 4:45–5:45 PM. If you are taking the exam, you will need to bring the following with you: $40 check made payable to "Secretary of State," current CA driver's license with photo or state-issued ID card, a 2”x2” color passport photo of yourself and two #2 pencils. If you took your notary class online, you MUST have your certificate of completion with you. Live Scan fingerprints are required after you pass the exam. Serious convictions may disqualify applicants.

Note: You are automatically registered for the official state exam directly following the seminar. See box to the right regarding the notary test.

*Please make check payable to Notary Public Seminar

DELIGHT IN AN ADVENTURE OF SANTA ROSA ISLAND
SATURDAY • JUNE 15

SUMMER NIGHTTIME VISIT—THE GRIFFITH OBSERVATORY AND PLANETARIUM
SATURDAY • JULY 27
Reading Development Programs for 4-Year-Olds through Entering 2nd Graders
At the primary level our developmental classes encourage children to develop reading and listening skills by working with storytelling, rhyming patterns and initial sound games. In addition, we supply students and parents with instructional materials designed to improve comprehension.

Reading Development Programs for Entering 3rd through 5th Graders
At the elementary level we emphasize the transition students make into reading for information. In order to read successfully, students must read fluently. By studying and improving upon word attack skills, use of punctuation, and vocabulary development, children internalize the mechanics of reading, which allows them to focus more on content. Additionally, we introduce comprehension strategies, which assist in reading fiction and non-fiction.

Reading and Study Skills Programs for Middle School and High School Students
At this level we address students’ need for increased efficiency. The programs continue to build on each child’s reading foundation, while providing techniques for increasing reading speed and strategies for boosting comprehension. At this level we emphasize study skills so that students are equipped to tackle the demanding requirements of junior and senior high school.

Speed Reading and Comprehension Training Programs for Adults, College Students and Entering High School Seniors
In this class, you will learn to read two to four times faster than you read presently and increase your comprehension skills.

Delight in an Adventure of Santa Rosa Island

Saturday, June 15, 2019

Located 40 nautical miles from the Channel Islands National Park visitor center in Ventura, Santa Rosa is the second largest island in California at approximately 53,000 acres in size. The island’s relatively low profile is broken by a high, central mountain range, rising 1,589 feet at its highest point. Its coastal areas are variable, ranging from broad, sandy beaches gently sloping toward a dynamic ocean to sheer cliffs plunging toward the turmoil of a sea intent on changing the contour of the land. The islands not only offer a delightful break from the congestion and clamor of urban life, but also numerous activities. Due to their relative isolation and protection, the tide pools in Channel Islands National Park are some of the best within southern California. Anemones, sea stars, urchins, limpets, periwinkles, chitons, barnacles, mussels and many other beautiful species can be seen at numerous pristine tide pool sites.

We will drive to Ventura Harbor in a luxury bus while you catch up on your sleep or read a good book. Then enjoy a two-hour boat trip across the channel to the Benchers Bay landing area from Ventura Harbor. One of the most exciting things about the trip is that there is always a good chance of seeing blue or humpback whales and/or dolphins racing along with the boat in the deep water to and from the island. Santa Rosa is a naturalist’s paradise and is also the perfect place to hike or simply delight in the wildlife and scenery as you take those perfect pictures or draw with your sketch pad.

Fee: Book Early for $179. For booking made after 5/18, fee will increase to $190.

Guide: Kristin Maccarrone

Activity Level: Moderate (There will be a lot of walking if you plan on exploring the island trails.)

Note:
• Includes boat trip to the island. The channel crossing takes about two hours and a little longer when we encounter marine life along the way.
• Wear flat shoes with rubber-soled and good tread (no high heels) or hiking shoes. We suggest that you do not wear loose or leather soled sandals nor flip flops on your island adventure.
• Dress casually in layers suitable for cool and/or warm weather.
• Sunscreen and/or hat is recommended.
• Cameras and binoculars are great to bring along.
• Check with your doctor for appropriate sea sickness medication if necessary.
• Bring a backpack, lunch, snacks and drinks.

Depart: 4 AM Return: approx 9:30 PM
(time on the island will be about 5 hours)

Pick up and drop off at Oceanside Campus
1 Barnard Drive, Oceanside, Parking Lot 1A.

Summer Nighttime Visit—the Griffith Observatory and Planetarium
Saturday, August 10, 2019

Griffith Observatory is an icon of Los Angeles, a national leader in public astronomy, a beloved civic gathering place and one of southern California’s most popular attractions. The Observatory offers many exhibits on the main level and roof; each focusing on a unique aspect of observation. In the planetarium there is an optional show that you may purchase tickets to see (subject to availability and time constraints). The planetarium show costs $7 for adults and $5 for seniors age 60 and older. If you are so inclined, you might like to enjoy a short hike on some of the trails surrounding the observatory, which offer gorgeous views of the city. There is even a gift shop on the premises for souvenir purchases and a reasonably priced restaurant. You can bring a picnic or have lunch/dinner on your own at the Wolfgang Puck “The Café at the End of the Universe” restaurant with its spectacular view of Los Angeles. If the skies are clear, you can utilize the free public telescope, as there are knowledgeable demonstrators to guide visitors observing. Come and enjoy this special summer nighttime visit!

Fee: Book Early for $79. For booking made after 7/20, fee will increase to $89.

Guide: Thalia Causey

Activity Level: Easy (Moderate with a lot of walking if you plan to explore the surroundings)

Note:
• Includes transportation.
• Wear very comfortable walking shoes. Dress casually in layers suitable for cool and/or warm weather.
• Sunscreen and/or hat is recommended if you plan to be outdoors.
• There will be a no-host lunch/dinner.
• If you choose to attend the Samuel Oschin planetarium show, you will be purchasing your own ticket, as they do not accept group reservations.

Depot: 1:30 PM. Return: approx 10:30 PM.

Pick up and drop off at Oceanside Campus, 1 Barnard Drive, Oceanside, Parking Lot 1A.

HOW TO APPLY FOR WORK SKILLS CLASSES

The majority of our Work Skills classes (identified by a ◊) require that students complete a Student Interest Form and Student Application before enrollment into any Work Skills class can occur. A Medical Form is also required for Machinist, CNC Operations and Welding classes.

Start here www.tinyurl.com/TCIinterest by creating a Student Interest form (profile). Keep your password handy as you will need to log back into the system. Then follow the steps below:
1. Sign on using your username (email) and password at ctk.apricot.info
2. Click “MENU” in upper left corner of form
3. Click “Search Records”
4. Click “Student Interest Form”
5. Your name should appear in the middle of the page
6. Click your name
7. An “Additional Documents” box will appear below your profile information
8. Drag your mouse to the right of the Application and click “Create New”
9. Don’t forget to “Save Record” on the right side of page
10. Repeat steps for the Medical Form ONLY if you are taking Welding, Machinist Technology, or CNC Operations
11. Lastly, submit a photo ID in person or via email to tci@miracosta.edu.

Note: For our longer Work Skills programs and/or outside funding sources, there may be additional forms and documents that are required.

Our programs under 50 hours will typically accept students ages 15 years or older. Please contact our office at 760.757.2121, x6346 prior to applying.

CERTIFICATE INFORMATION

For any program over 50 hours, students will have the opportunity to earn a Certificate of Accomplishment. If you are enrolled and successfully complete a program under 50 hours, we can issue a certificate for $20.

REFUND POLICY

Refunds will be made up to five working days prior to your class start date. A $25 cancellation fee will be retained for each refund. There are no refunds given once the class has begun, unless special permission has been granted by the program coordinator.

An introductory, 50-hour course that teaches students the basics of electronic technology. Students experiment with direct current, series-parallel circuits and transistors/semiconductors. Additional topics include: study of Ohm’s law, Watt’s law, use of electronic components, basic soldering, oscilloscopes, digital volt meters, bread-boarding electronic circuits, basic computer troubleshooting and basic AC circuitry.

Reduced Fee: $450

Location: Technology Career Institute
Time: 10 Mondays & Wednesdays, 6/10–8/14 6–8:30 PM

Blueprint Reading with GD&T

In this 30-hour hands-on class students learn to read and correctly interpret blueprints used in the manufacturing trades. They will get an opportunity to draw and edit simple blueprints through step-by-step development of multi-view drawings. In addition, students will learn the basics of geometric dimensioning and tolerancing (GD&T). This course is the perfect introduction to GD&T, symbols, applications and methods of inspection.

Fee: $250 Admin Fee: $150*

Location: Technology Career Institute
Time: 6 Tuesdays & Thursdays, 5/21–6/27 6–8:30 PM

“Broad coverage of the subject. Great exposure to the basics. Good balance of theory and hands-on.”

Biomedical Equipment Technician Program (BMET)

Biomedical Equipment Technology plays a vital role in patient care through the inspection, maintenance and repair of medical devices. MiraCosta’s 486-hour BMET Program will train students to troubleshoot, repair monitor and maintain electronics-based biomedical instruments and equipment. The program was developed as a result of increasing demand for biomedical equipment technicians (BMETs) in the San Diego County region. Courses build on lecture topics through extensive hands-on application in the areas of:

• Fundamental electronics
• Human anatomy
• Advanced troubleshooting
• BMET career readiness

Fee: $6,000 Admin fee $350* GI Bill® funding approved.

◊BrewTech Program

Computer Numerical Control (CNC) Operation

Computer numerical control (CNC) is the automated control of manufacturing machining tools (drills, boring tools, lathes) by means of a computer. In this 112-hour course, students will learn safety, terminology, and basic blueprint reading as well as interpretation of G&M codes, and operation of both a HAAS CNC mill and lathe. Students will also get exposure to CAD/CAM software. Course material and activities are provided via demonstrations and hands-on instruction.

Fee: $2,100 Admin Fee: $175*  
Location: Technology Career Institute

Time: 14 Sundays, 5/19–8/25, 8 AM–4:30 PM  
No class on 5/26.

◊CNC Programming—Introduction  
Using MasterCam Mill

In this 30-hour introductory course, students learn how to design basic CNC programs for a three-axis CNC milling machine. Students will be instructed on G&M codes, Boolean logic and machine and control definitions. In addition, the class will cover basic aspects of post configuration, variable definitions, formatting, post lines, post text, modality and control definitions.

Fee: $250 Admin Fee: $125*  
Location: Technology Career Institute

Time: 5 Mondays & Wednesdays, 6/3–7/3, 6–9 PM

◊CNC Programming—Intermediate  
Using MasterCam Mill

MasterCam is the most widely used CAM software in the industry and this intermediate, 30-hour course will provide students with trade-specific tips and tricks, whether they are in the production or the programming. This course also teaches additional topics for more intricate programs and designs. HAAS simulators will be used to test run the programs.

Fee: $250 Admin Fee: $125*  
Location: Technology Career Institute

Time: 5 Mondays & Wednesdays, 7/29–8/28, 6–9 PM

*Tuition is FREE through the DOL funded America’s Promise Grant.  
Note: The listed administrative fees will be collected upon registration.
Electronic Assembly
Learn the necessary training to become an electronic assembler at an advanced manufacturing company:

- Soldering through-hole and surface mount single-lead/multi-lead components
- Soldering multi-pin IC chips
- Measuring and cutting wire
- Trimming insulation, crimping, connectorizing, molding and insulating connector ends
- Wrapping, bundling, shielding, insulating and security cable harnesses
- Mounting modules, components, connectors, cables and harnesses into chassis

In this 80-hour course students will work toward IPC certification. In addition, students will learn the role of production in the manufacturing system and how certain skill sets, such as reading and analyzing acceptance criteria, testing, documentation and soldering are integral to the job.

Fee: $1,800 Admin Fee: $220*
Certification: A $65 Certification fee will be collected.
Location: Technology Career Institute
Time: 10 Sundays, 6/16–8/25, 8:30 AM–5 PM
No class on 8/4.

Engineering Technician Program
Whether you want to work in electronics, aerospace, biotechnology or breweries, this program can provide you with the necessary training.

Engineering technology integrates theory and application in mechanical, electrical and electronic systems, fluid power, automation, robotics and computer software. Our 600-hour program is 75% hands-on, gets students in front of industry leaders and trains students in the areas that companies have requested. Students will receive:

- OSHA certification
- National Career Readiness certification
- 2 days of job shadow experience
- Industry tours and guest speakers
- Career Readiness Bootcamp

Students will experience an accelerated program designed to prepare them with the skill sets to qualify for immediate entry into positions with local industry. Or, if a student has a college degree in this subject area or is interested in pursuing one in the future, this is the perfect supplement to enhance their current or future education.

Fee: $6,750. GI Bill® and WIOA funding approved.
Note: A $350* charge to cover administrative fees will be collected upon registration.

Machinist Technology Program

Want to work in the aerospace industry, make medical device parts and accessories or design a new golf club?

Gone are the days of the grease-covered, conventional machinist. Today’s machinist must be highly trained with specific skills, working in high-tech manufacturing plants that are clean and innovative. Our nation has a huge shortage of skilled workers. As 77% of skilled Baby Boomers leave the workforce, San Diego County will need to fill thousands of positions over the next 15 years.

To meet this need, we offer a fast-paced, high-level training program. Students will be able to complete this program in 21-weeks (487 hours), with training in shop math, metal properties, reading blueprints, precision measuring, tooling, G&M codes, and manual and CNC machining. In addition, students will receive:

• OSHA certification
• National Career Readiness certification
• Opportunities to attend local industry meetings
• 2 days of job shadow experience
• Industry tours and guest speakers
• Career Readiness Bootcamp
• Apprenticeship pipeline available

Fee: $6,500. GI Bill® and WIOA funding approved.

PLC Design Logic

A hands-on study of PLC programming and logic design using Siemens TIA S7-1200 hardware/software, as well as ladder logic based on a RS Logix 500 emulator. Topics covered during this 30-hour course are hardware components and software interfacing to the PLC, ladder logic using switches, timers and counters, arithmetic operations, MOV operators, logic functions, shift registers and subroutines. Three simulated design projects will be assigned throughout the course. By the end of the course students will be familiar with ladder logic programming and interfacing with PLC controllers, as well as design methodologies for PLC programming.

Note: A basic understanding of electrical circuitry is strongly recommended.

Fee: $300

Location: Technology Career Institute
Time: 5 Saturdays, 6/22–7/20, 11:30 AM–5:30 PM
Unmanned Systems ROV/Drone Operator Technician Program with FAA Licensing Test Prep

San Diego is a center for innovation and remote operated vehicles (ROV) are becoming the technology of choice for overwater, underwater, aerospace, retail delivery and agriculture industries. Our new 486-hour program will employ hands-on training using state-of-the-art technology. Upon course completion, students will be ready to take the FAA Unmanned Aircraft Systems (UAS) Drone Knowledge Test—the required exam needed to pass to get a Remote Pilot Certificate.

Course includes:

- Industrial safety
- Electrical and specialty wiring
- Programmable controllers
- Machine design
- PC base data acquisition and control
- Geographic Information Systems (GIS)
- Electrical and mechanical repair
- Introduction to submersible robotics
- Introduction to ROV/drone careers
- ROV piloting
- Introduction to drones (UAVs)
- Drone piloting
- FAA licensing requirements and regulations
- FAA exam prep

Welding I Program

Designed to train students to qualify for an American Welding Society (AWS) code, this 132-hour course will explore basic welding processes and procedures, safety, interpretations of blueprints/shop drawings, metallurgy, fabrication tools, welding qualifications and procedure qualification. In addition, students will receive a significant amount of hands-on training in:

- Shielded Metal Arc Welding (SMAW)
- Gas Metal Arc Welding (GMAW)
- Flux Core Arc Welding (FCAW)

Fee: $2,400. GI Bill®, WIOA and Sallie Mae funding approved.

Location: Landes Recreation Center, 2855 Cedar Road, Oceanside

Time Options:
11 Tuesdays, Wednesdays & Thursdays, 6/25–9/10, 5–9 PM. No class on 7/4.
19 Saturdays, 7/20–12/14, 8 AM–3:30 PM. No class on 8/31, 11/9 & 11/30.

Welding and Metal Fabrication

Interested in welding and other authentic manufacturing processes? If so, this 60-hour class is a great introduction or opportunity to practice existing skills. Topics include:

- Oxy-acetylene welding, cutting, brazing and soldering
- SMAW: electrodes and positions
- GMAW: hardwire, short and spray arc, gas coverage
- FCAW: inner and dual shield
- GTAW: aluminum, magnesium, stainless steel, carbon steel, brass and gas coverage
- Plasma arc cutting

Students will also learn fabrication math, specialty certifications, fabrication skills, job steps from start to finish, tacking, squaring and order of welding and basic critical thinking.

Fee: $985

Location: Landes Recreation Center, 2855 Cedar Road, Oceanside

Time: 15 Mondays, 5/6–8/19, 5–9 PM. No class on 5/27.

New Public Safety and Security Program

Public Safety Swimmer
This course was designed and developed for personnel desiring a career in the public or private sector as a member of a public safety organization with a maritime/waterborne-based mission profile. The nation’s homeland security and public safety organizations require their maritime forces to be highly skilled in all aspects of maritime tactical operations in order to deter, detect and defeat the ever-increasing maritime threat. Students will develop water safety, drown-proofing, and water survival skills, as well as the tactics, techniques and procedures related to public safety tactical maritime/waterborne operations.

Fee: $1,824
Location: Technology Career Institute
2075 Las Palmas Drive, Carlsbad
Time: 8/5–8/8, 8 AM–5 PM

Public Safety Diver
This course was designed and developed for personnel desiring a career in the public or private sector as a member of a public safety organization with a maritime/waterborne-based mission profile. The nation’s homeland security and public safety organizations require their maritime forces to be highly skilled in all aspects of maritime tactical operations in order to deter, detect and defeat the ever-increasing maritime threat. The course will deliver the skills to personnel tasked with the responsibility of conducting public safety SCUBA diving operations safely and efficiently as a member of a public safety dive team. Students will develop water safety, drown-proofing, and water survival skills, as well as the tactics, techniques and procedures related to public safety SCUBA diving operations.

Fee: $2,423
Location: Technology Career Institute
2075 Las Palmas Drive, Carlsbad
Time: 8/12–8/16, 8 AM–5 PM

Child Visitation Monitor
Are you looking for a career opportunity in which you can work within the community, gain valuable experience and make a difference in the lives of children and families? Consider becoming a Professional Child Visitation Monitor; a position that is always in demand. Average pay for monitors is $30–$60 per hour, depending on the case. Sometimes, based on issues of protection and safety, a judge will order that a child only have contact with a parent when a neutral third person is present during the visit. The monitor’s responsibility is to ensure the safety and well-being of the children involved. This comprehensive course satisfies the state’s 24-hour training requirement. You will learn California policies and procedures, as well as your role as a monitor. Upon completion, you will also receive a certificate of accomplishment and forms necessary to register with San Diego Superior Court.

Note: Must be at least 21 years old and have a clean record.
A small business license is required if you want to work independently as a child visitation monitor. Participants will eventually get fingerprinted upon registering name with the superior court and apply for a business license. This comprehensive course satisfies the state’s 24-hour training requirement.

Fee: $315
Supplies: A $55 materials fee will be collected in class for training manual. Bring sack lunch or snacks.
Instructor: Jazmin Mundo
Location: Oceanside Campus, Room 3103
Time: 4 Saturdays, 6/29–7/27, 9 AM–3:30 PM
No class on 7/6.
Phlebotomy Technician Program with NCCT Exam

MiraCosta College Community Education & Workforce Development, in partnership with PhlebotomyU, is proud to offer this excellent opportunity for those seeking to enter the medical field as a CPT1 phlebotomy technician.

Students are required to complete:

• A minimum of 20-hours in basic phlebotomy
• A minimum of 20-hours in advanced phlebotomy
• A minimum of 40-hours in a laboratory course in applied phlebotomy
• 40–120 hours of clinical externship in a healthcare setting

Students who pass the course will also be eligible to take the certification examination offered by the National Center for Competency Testing (NCCT) in class at the conclusion of the course. Upon successful completion of the course, participants will be issued a state-approved training certificate.

Note: A $100 California CPT 1 License Application fee, BLS Certification and all immunization are not included in the tuition fee and must be paid by the student. High school diploma or GED required.

Fee: $2,950. GI Bill® and WIOA funding approved.

Additional Fees: A $90 National Examination Fee and a $100 Background Check and Drug Screen Fee will be collected at the time of registration with the tuition fee.

Register for the FREE information session now: Tuesday, 8/16 at 5:30 PM (details on page 45).

Location: Technology Career Institute, 2075 Las Palmas Drive, Carlsbad, Room 100

Externship: Clinical externships will be provided and supervised by our phlebotomy program staff.
Real Estate License Program

An accelerated 4-month program that includes licensing exam preparation. The Real Estate License Program provides the perfect training for those students planning to enter the real estate profession, as well as opportunities for those currently working in real estate and related areas to increase knowledge in this field. MiraCosta’s Real Estate Program has moved to Community Education & Workforce Development and will no longer offer college credit. However, the duration of the course has been shortened to 4 months/150-hours and includes testing preparation and the opportunity to take the real estate exam at the end of class.

Course includes: Real Estate Principles, Real Estate Practice, Legal Aspects of Real Estate, Mastering Real Estate Math and Exam Preparation.

CERTIFICATIONS: If students attend all classes, complete the necessary coursework and pass the required tests, students will receive a MiraCosta College Certificate of Accomplishment. Licensing to become a real estate salesperson is conducted by the California Department of Consumer Affairs Bureau of Real Estate (BRE). To obtain a California Real Estate Salesperson license, candidates must first qualify for and pass a written examination. For information about state licensing, go to bre.ca.gov.

Fee: $350 per course, or save and sign up for all three courses for $900
GI Bill® and Sallie Moe funding approved.

Veterinary Assistant Program

Become a veterinary assistant in just a few months! This 60-hour program will provide students with an overview and entry-level training. Learn basic animal care principles and techniques, safety procedures and state/federal guidelines.

Topics include:
- Basic anatomy and physiology
- Basic radiology
- Small animal breeds
- Animal nutrition
- Parasite control
- Record-keeping and veterinary office procedures
- Client relations and communications
- Veterinary medical terminology, hospital patient care and reception skills

Students will learn lab skills and surgical assisting appropriate to the veterinary assistant level. This class is entry level and specifically NOT veterinary technician training, which requires a two-year degree program.

Fee: $990. GI Bill® and WIOA funding approved.
► Register for the FREE information session now: Tuesday, 8/13 at 6 PM (details on page 45).

Additional Fees: A $15 lab fee will be collected at the time of registration with the tuition fee.

Supplies: Students will need to purchase the book, Veterinary Assisting Fundamentals & Applications by Beth Vanhorn & Robert Clark and Animal Restraint for Veterinary Professionals by C.C. Sheldon, James Topel and Teresa Sonstagen (available on amazon.com) PRIOR to the first class session.

Location: Technology Career Institute
2075 Las Palmas Drive, Carlsbad, Room 100

Time: 10 Saturdays, 9/14–12/14, 9 AM–4:30 PM
No class on 10/19, 11/2, 11/16 & 11/30.

Externship: We strongly recommended a minimum of 80 externship hours at the conclusion of the training (this is required for anyone receiving funding from an outside organization).
Online Electronics/Robotics

MiraCosta Community Education & Workforce Development, in partnership with George Brown College, is proud to offer six interactive and highly innovative distance education programs that combine state-of-the-art lab simulation with award-winning curriculum. The program content is delivered on CD, DVD or USB drive and is supported through the online virtual campus.

**Automation Technician**
The AT program provides an introduction to industrial automation, including digital electronics, process control, and programming of PLCs, robotic and SCADA systems.

*Fee: $1,850*

Or pay as you go (cost per module available at miracosta-gbc.com).

**Electronics Technician**
The ET program covers the fundamentals of electronics and prepares students for further on-the-job training as a consumer, commercial or industrial electronics service technician.

*Fee: $1,750*

Or pay as you go: initial registration $430 and $60 for each of the remaining 22 modules.

**Electromechanical Technician**
The ET program is designed to provide students with a foundation in electromechanical technology, such as industrial maintenance, design and installation, technical services, technical sales and industrial research.

*Fee: $1,800*

Or pay as you go: initial registration $430 and $60 for each of the remaining 23 modules.

**Robotics Technician**
An introduction to industrial robotics, this course explains how they are used in plants or manufacturing systems.

*Fee: $1,650*

Or pay as you go: initial registration $570 and $90 for each of the remaining 12 modules.

**Programmable Logic Controllers (PLC) Technician**
The basic introduction to PLCs, this program is designed for people with little or no background in the area. Visit the website listed below for more information.

*Fee: $1,800*

Or pay as you go: initial registration $450 and $75 for each of the remaining 18 modules.

**Programmable Logic Controllers II (PLC) Technician**
The PLC Technician II Certificate provides a more advanced study of PLCs, introducing tag-based addressing, DCS and SCADA systems.

*Fee: $1,800*

Or pay as you go: initial registration $450 and $75 for each of the remaining 18 modules.
