Regulation Section 101221 requires the following information to be on file.

Written consent must be provided from the parent, permitting childcare facility personnel to administer medications, including sunscreen, to the child. Instructions shall not conflict with the product label directions.

The Child Development Center @ MiraCosta College will be supplying Rocky Mountain Sunscreen, Fragrance Free Water Resistant SPF 30. A separate application log will be maintained in the classroom. Product description is listed below.

We request parents apply sunscreen before the child arrives in the morning. This consent authorizes childcare personnel to administer this sunscreen to the above named child as needed during the day while in attendance at the facility.
