MIRACOSTA COMMUNITY COLLEGE DISTRICT
FY2014 FINAL BUDGET

In order to appropriately identify and differentiate between those resources available for the general purposes of district operations and support of its educational program from those that are specifically restricted by laws, regulations, donors or other outside agencies, this budget format provides information on unrestricted and restricted general funds separately. The Five-year Fiscal Plan reflects only the district's general unrestricted funds.

NOTES

**FY2014 FINAL BUDGET GENERAL FUND – COMBINED
GENERAL OBSERVATIONS (Page 11)**

The combined General Fund includes both restricted and unrestricted general funds. The FY2014 Final Budget reflects the beginning balance and total revenues of \$120.8 million and total expenses of \$106.5 million. Restricted funds account for 8% of the total combined revenues, which include anticipated carryover amounts from FY2013. More detailed information is provided below.

**FY2014 FINAL BUDGET GENERAL FUND – RESTRICTED
GENERAL OBSERVATIONS (Page 12)**

General Fund restricted resources are specifically restricted by laws, regulations, donors or other outside agencies as to their expenditures. Such externally imposed restrictions do not include internally designated restrictions imposed by governing boards on unrestricted moneys. Matching contributions for categorical programs and other programs are included in the Unrestricted General Fund.

The beginning balance for the Restricted General Fund is \$1,575,736. This balance consists of allowable carryover amounts from FY2013 to FY2014.

Federal restricted awards include Perkins IV for career and technical education; Adult Basic Education Programs; Small Business Development Center Trade and Commerce funds; and Gaining Early Awareness and Readiness for Undergraduate Programs (Gear Up).

Major categorical programs include Basic Skills, Extended Opportunity Programs and Services (EOPS), Disabled Students Programs & Services (DSPS), Matriculation, Board Financial Assistance Program (BFAP), and California Work Opportunities and Responsibility to Kids (CalWORKS).

Local restricted resources are primarily for health service and parking fees. These fees typically correlate to some extent to enrollment patterns.

State categorical programs have been budgeted at the current apportionment levels due to preliminary information from the Chancellor's Office regarding funding. Fiscal Services will continue to provide updates from the state and make any necessary revisions or adjustments as they become final.

FY2014 FINAL BUDGET GENERAL FUND – UNRESTRICTED
GENERAL OBSERVATIONS (Page 14)

The Unrestricted General Fund is the primary operating fund of the district. It is used to account for those transactions that, in general, cover the full scope of operations of the district (instruction, administration, student services, and maintenance and operations). Per the direction of the Board of Trustees at the April 23rd board meeting, a portion of the reserves are being redirected to the operational budget in FY2014. Approximately \$3.7 million from the reserves will fund student success initiatives, increase program offerings, seed future capital outlay, address deferred maintenance, improve district technology, increase the GASB 45 contribution, and increase campus security.

The largest source of revenue in the general fund comes from property taxes. The total property taxes collected in FY2013 represented a 2.4% increase over FY2012. The assumptions used to project the FY2014 property taxes are based on receipts to date and other critical information from locally assessed values provided by the County of San Diego's Assessor's Office. The district expects property taxes to increase to \$77 million in FY2014 which represents a 3% increase over property taxes collected in FY2013.

The district will receive new revenue from Proposition 30, The Schools and Local Public Safety Protection Act of 2012, which passed in November 2012. This proposition temporarily raises the sales and use tax by .25 cents for four years and raises the income tax rate for high income earners for seven years to provide continuing funding for local school districts and community colleges. The Education Protection Account (EPA) is created in the General Fund to receive and disburse these temporary tax revenues. The district is expected to receive \$1,043,000 from this revenue source in FY2014.

Additional revenue from enrollment fees and nonresident fees is expected to increase slightly in FY2014. This increase corresponds to the .5% assumption in funding for FTES growth that was presented in the 5 Year Fiscal Plan.

Other revenue generated from Other Local Sources includes the following fees: course fees, transcripts fees, testing fees, student ids, and business development contracts. In addition, revenue from Successor Agencies formerly known as Redevelopment Agencies (RDA) for the Cities of Oceanside, Solana Beach, and Carlsbad are considered Other Local Sources. The district will

continue receiving revenue in FY2014 due to the redistribution of local assets as a result of the dissolution of RDA's.

Total expenditures budgeted for FY2014 Final Budget is \$97,041,778. The increase in expenditures is a direct result of the allocation of reserves to the operational budget. The Academic and Classified salaries along with benefits represent 81% of total expenses. The combined total of salaries and benefits for FY2014 reflects a 3.2% increase from the FY2013 budgeted amount. This is primarily due to the following factors: increase to the GASB 45 contribution, step and column adjustments, increase in hourly faculty for expanded courses, and the filling of vacant positions. Those positions include five replacement faculty, Dean of Arts and Languages, and various classified positions.

The budget assumption of an overall growth factor of .5% is included in Supplies and Other Operating Expenses. The increase was distributed at the Divisional level to be allocated towards expanding programs such as the veteran's program in the Student Services Division as well as other areas identified by the Office of Instruction.

The budget for capital outlay will increase from \$1.2 million in FY2013 to \$2.6 million in FY2014. This increase reflects the allocation of resources towards upgrading the district's technology infrastructure. The purchases of a degree audit system for the implementation of the Student Success Act and a data warehouse are one-time expenditures identified from the reserves. In addition, funding to purchase equipment to enhance campus security is included.

The FY2014 Final Budget under the Total Other Outgo category reflects an increase of \$3.1 million as a result of the following activity: Interfund Transfers and Program Review Initiatives. Due to the failure of Proposition EE, the district will transfer approximately \$2.5 million to the Capital Outlay fund to support future capital construction projects and deferred maintenance projects. The interfund transfer to the Self-insurance fund was temporarily suspended as a cost savings measure in FY2013; however, this transfer will be restored to the original amount of \$50k. In addition, the transfer to the Board Futures Reserves held in the Capital Outlay Fund will increase. The calculation of the Board Futures Reserves directly correlates to the collection of property taxes. Funding of program review initiatives is incorporated into the FY2014 budget under the Other Outgo category. The combination of one-time and on-going program review initiatives will be reallocated to the proper category once approved by the Superintendent/President during the fiscal year.

FY2014 FINAL BUDGET – CAPITAL OUTLAY PROJECTS FUND (Page 16)

The Capital Outlay Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. Other activities

recorded in this fund are improvements or extensions to the life of existing capital facilities, including major repair and remodeling projects such as scheduled maintenance.

The district may provide for the accumulation of moneys over a period of years for specific capital outlay purposes through interfund transfers of general purpose moneys into this fund. The FY2014 income in this fund is primarily generated through yearly interfund transfers from the General Fund. The transfers are to support the board futures reserves and expenditures for information technology. The newest interfund transfer will include \$2.5 million from the general fund to support future capital needs of the district.

The expenditures in the Capital Outlay Projects Fund will vary from one project to another. Some projects will be completed within the fiscal year, while other projects may have various phases that span over several fiscal years. As such, the FY2014 budget is presented in a manner that allocates the total resources to all projects in the fund.

The following projects were completed in FY2013: San Elijo emergency generator, San Elijo air handler replacement, and roofing repairs on the Oceanside campus. Three capital construction projects were started in late FY2013 on the Oceanside campus which included the new Gen7 Science classroom, cadaver room modernization, and the concert hall light rigging project. Preliminary plans and final construction documents were prepared and submitted to the Division of State Architects Office for the new science classroom building at the San Elijo campus. The district completed smaller local deferred maintenance projects in FY2013 and anticipates the completion of other projects in FY2014.

FY2014 FINAL BUDGET – DEBT SERVICE FUND (Page 17)

The Debt Service Fund was established for capital improvements made at the Community Learning Center through Lease Revenue Bonds and the agreement with SunTrust for the energy conservation retrofit projects. The district is required to maintain a one year payment reserve. The final payment on the Lease Revenue Bonds will be in 2020. Final payment on the lease agreement with SunTrust will be in 2016. Transfers from the General Fund are made to the Debt Service Fund for payments of these debts. Additional income to this fund is generated from a lease agreement between Arby's and the district.

The Debt Service Fund ending balance for FY2014 is estimated to be \$501,487.

FY2014 FINAL BUDGET – SELF INSURANCE FUND (Page 18)

The Self-insurance Fund is used for payments of insurance policy deductibles and any uninsured perils. All insurance premium payments are paid from general funds and are listed under Other Operating Expenses in the Unrestricted General Fund budget. A transfer from the General Fund is processed yearly to cover the anticipated deductibles and uninsured losses when necessary. The district decided to suspend the yearly transfer in FY2013; however, that transfer is restored in FY2014.

Insurance for property and liability losses is provided through the San Diego County Schools Risk Management Joint Powers Authority.

The Self-insurance Fund ending balance is estimated at \$122,313.

FY2014 FINAL BUDGET- STUDENT FINANCIAL AID FUND (Page 19)

The district is required to establish and maintain a specific fund for certain types of financial aid programs. The allowable expenditures are strictly regulated by the funding sources, and any unused budget must be returned to the funding agency. Due to the regulations requiring the return of any unused student financial aid funds, no beginning or ending balance is reflected. The budget for FY2014 was developed with input from the Financial Aid Office. An increase of 18% is projected for FY2014. This increase is in response to the current level of activity in financial aid, which is significantly higher than the FY2013 budget.

FY2014 FINAL BUDGET– STUDENT CENTER FEE FUND (Page 20)

The restricted Student Center Fee Fund is used to account for funds collected from students for the construction, remodel, and operation of the Student Centers. The Associated Student Government and the district administration jointly determine the projects to be funded with a portion of the Student Center fees collected. Recommended projects to be funded are determined at a Student Senate meeting in the coming fiscal year.

The Student Center Fee Fund ending balance for FY2014 is budgeted at \$1.2 million.

FY2014 FINAL BUDGET- BOOKSTORE FUND (Page 21)

The FY2013 final income from the bookstore commissions was \$265,965. The sales projections indicate that the commission to the district will continue to decline. As a result, the FY2014 Final Budget for revenue from commissions is

slightly lower than the budget amount in FY2013. Although bookstore sales are projected to decline further in FY2014, the additional course offerings planned for next fiscal year may counterbalance this trend. Proceeds from the bookstore are used to reimburse the district's General Fund for rent, equipment and facilities maintenance and replacement, insurance, and fifteen percent of an Accounting Technician's salary and benefits. Proceeds are also used to provide \$5,000 annually to the Associated Student Government.

FY2014 FINAL BUDGET- FOOD SERVICE FUND (Page 22)

The Food Service Fund FY2013 Final Expense report realized a loss of \$27,618, and the FY2014 Final Budget is projecting a continued loss. The agreement for food services includes both the Oceanside Campus (OCN) and San Elijo Campus (SEC). However, the service offered at SEC historically resulted in a net loss to the Food Service Fund. The projected loss for FY2014 will be offset by a transfer from the Unrestricted General Fund. The district could eliminate the loss in the Food Service Fund by radically reducing hours of service and reducing the quality of the operations. The district has chosen to maintain its quality food services as an additional incentive for students to remain on campus and, hopefully, enjoy a better chance of educational success. The future loss in this fund may diminish over time as a result of expanded course offerings at SEC.

FY2014 FINAL BUDGET- ASSOCIATED STUDENT GOVERNMENT FUND (Page 23)

The FY2014 Final Budget shows net income of \$8,063. The Associated Student Government budget is prepared, approved, and monitored by the Associated Students. All expenditures are approved by a district administrator and the sub-fund is audited as part of the overall annual district audit.
