As part of MiraCosta College’s culture of care, the Standards of Student Conduct and Student Conduct procedures are designed to support student success. Student Conduct at MiraCosta College is an educational and developmental approach that is designed to uphold students’ rights and ensure safety throughout our community. As a community college, all stakeholders, including students, have responsibilities to ensure a safe and productive learning environment.

Students are invited to review the Standards of Student Conduct and engage in behaviors that uphold the campus expectations and their responsibilities to collectively engage in efforts to support a safe and supportive environment.
