COMPUTER APPLICATIONS PROGRAM

MiraCosta College's Computer Applications Program offers a wide range of classes that meet days, evenings, weekends and online. All courses are designed to meet business and professional level certification computer competency standards and are taught using the latest industry standard software.

For current course offerings, go to **miracosta.edu/schedules**.

PREPARE FOR A GREAT CAREER!

According to the U.S. Department of Labor, information technology occupations are projected to be among the fastest growing through 2019. In this period, employment is expected to grow 38 percent, placing it among the top 10 industries with the largest predicted job growth. Those who want a competitive edge in the job market turn to MiraCosta College for its excellent computer applications training and certification programs.

"*I had just moved to the area from Hawaii and started a new job. I realized I needed more computer experience. I enrolled in CSIT 110, a great course that really helped me with my career and with school. After I finished with CSIT 110, I enrolled in CSIT 115. Everything I learned in this class I use every day at my job. Now that I've finished, I feel I have an advantage in other classes. If I get an assignment, I know I can get it done quickly, confidently and professionally.*" **—Maile Soukup**

COMPUTER APPLICATIONS PROGRAM CERTIFICATES & ASSOCIATE IN ARTS DEGREES

For more information about each of the options below, please contact the Counseling Department at 760.795.6670 or consult the MiraCosta College catalog at **catalog.miracosta.edu/disciplines/computerstudiesandinformationtechnology**.
