FALL | 2017
The English Language Institute (ELI) offers international students the opportunity to increase their English language proficiency and develop the skills needed for success in a college or university in the United States. This intensive English-as-a-second-language program provides individualized instruction in small class sizes. The program is designed for students with a minimum of one year of English language training at the high school or college level. This class may not be appropriate for advanced ESL students or students with a TOEFL score greater than 500 paper-based or 46 IBT. Students must be at least 18 years old or meet our minor policy requirements. Our International Student Office will issue 1-20’s. We accept students with F1, B1 and M1 Visa.

Instructional components include:
- TOEFL preparation
- Study of American culture
- Computer literacy development of study skills
- Integrated academic preparation in reading, writing, listening, speaking, and grammar.

Fee: $1,895 (instruction, application fee, books, and student services). Health insurance is an optional fee of $350. Students must purchase our insurance plan or purchase their own insurance plan that meets our requirements. (Fees subject to change.)

Location: Room T510

Getting Started with Your dSLR
In this workshop, you will learn how to set up your camera to optimize the quality of your photographs. We will cover the all-important topics of white balance and ISO to be able to shoot under difficult conditions. And, of course, learn about all of the little icons on your shooting dial. You’ll be able to take pictures right away!

Fee: $45  
Supplies: $3 material fee will be collected in class. Please bring your camera and manual to class.  
Instructor: Terry Matsuoka
Offered at 2 locations for your convenience
Location: Oceanside Campus, Room 3106
Time: 1 Tuesday, 9/12, 6:30–8:30 PM
Location: San Elijo Campus, Room 307
Time: 1 Tuesday, 10/10, 6:30–8:30 PM

From Good to Great Photos: Understanding Aperture & Shutter Speed
Even if you didn’t realize it, this is probably why you bought your dSLR in the first place! These concepts can be daunting to understand on your own. But once you master these aspects of photography, it’s what’s going to separate your pictures from the rest. We will also take a look at some of the pictures you took after your first session for constructive commentary. After this class, you’ll be able to practice depth-of-field and capture motion and time.

Fee: $45  
Supplies: $3 material fee will be collected in class. Please bring your camera and manual to class.  
Instructor: Terry Matsuoka

Location: San Elijo Campus, Room 307
Time: 1 Tuesday, 10/24, 6:30–8:30 PM

Making Shooting Perfect Pictures Easy
To get great pictures, we will cover strategies and basic lighting. These two topics will improve your photographs tenfold, no matter what camera you use. To make getting that perfect shot easy, we will cover these tools in your camera: lens focal length, exposure compensation, bracketing, auto-focus points, and flash. You will be surprised at how being so advanced can be so easy!

Fee: $45  
Supplies: $3 material fee will be collected in class. Please bring your camera and manual to class.

Time: 1 Tuesday, 10/24, 6:30–8:30 PM

Introductory digital SLR photography series can be taken as individual courses for $45, or together for only $99!

The photography topics are interrelated and affect one another, so we recommend you take all three (Getting Started with dSLR, Aperture & Shutter Speed, and Making Shooting Perfect Pictures Easy) to get a complete understanding of the camera and picture taking.
**NEW** Night Photography: Learn To Capture Amazing Images In The Dark

Want to capture night sky splendor with your digital SLR? The vibrancy of color can be found in capturing the stars, a city skyline at twilight, or even urban settings at night. Join photographer, Lamia Khorshid, and learn the technique and art of photographing after dark. Fundamentals of night photography are covered in the computer lab on night one. On night two, we shoot outside of class (weather permitting). Then on night three and four, we will meet at a selected location to put what we learned onto action.

**Fee:** $120. Early Bird Special $99 (Register BEFORE 9/23 for this rate)

FREE INFORMATION SESSIONS
Tours at TCI on Fridays at 9 AM        |        Email us at tci@miracosta.edu

MiraCosta College’s Technology Career Institute is an equal opportunity employer (EOE). Auxiliary aids and services are available upon request to individuals with disabilities. This project received $2,749,419.44 (45% of its total cost) from a grant awarded under the TAACCCT grant as implemented by the U.S. Department of Labor’s Employment and Training Administration.
HOW TO APPLY FOR WORK SKILLS CLASSES

The majority of our Work Skills classes (identified by an ◊) require that students complete an online application in our Work Skills database “Apricot.” In order to start the enrollment process, please start by going to tinyurl.com/TCIinterest to fill out the “Interest Form”. Then, follow the steps below for the Application and Medical Forms.

1. Sign on using your email and password at ctk.apricot.info
2. Click on Student “Interest Form” at the upper left
3. Click on your name (if it does not appear, click on “Browse All” to refresh the page
4. Go to the right of Application and click on “Create New”
5. Choose (PROGRAM)
6. Don’t forget to SAVE IT!
7. Go to “View Folder” and do the same for the Medical Form

Note: For our longer Work Skills programs and/or outside funding sources, there may be additional forms and documents that are required.

Our programs under 50 hours will typically accept students ages 15 years or older. Please contact our office at 760.757.2121, x6346 prior to applying.

CERTIFICATE INFORMATION

For any program over 50 hours, students will have the opportunity to earn a certificate of accomplishment. If you are enrolled and successfully complete a program under 50 hours, we can issue a certificate for $15.

REFUND POLICY

Refunds will be made up to five working days prior to your class start date. A $25 cancellation fee will be retained for each refund. There are no refunds giving once the class has begun, unless special permission has been granted by the program coordinator.

Tuition free courses received $3,600,000 (60% of total) from a grant awarded under the America’s Promise grant program as implemented by the U.S. Department of Labor.

Note: Mandatory math and reading comprehension assessments will be given right after the information session at 7 PM.

Note: If you have a verifiable disability, you will need to call us at least one week prior to the assessment so that we have time to make the proper accommodations.
◊ Additive Manufacturing Certificate

Classes are offered individually, or can be taken in certificate format. **Take all classes for $1,950 $925**

This certificate program is GI Bill® funding approved.

◊ **Blueprint Reading with GD&T**

This hands-on class helps students with blueprint reading and GD&T. Students learn to read and correctly interpret blueprints used in the manufacturing trades. They will get an opportunity to draw and edit simple blueprints through step-by-step development of multi-view drawings. In addition, students will learn the basics of geometric dimensioning and tolerancing (GD&T). This course is the perfect introduction to GD&T; symbols, applications and methods of inspection.

**Fee:** $200  
**Admin Fee:** $75*  
**Location:** Technology Career Institute  
**Time:** 10 Wednesdays, 9/6–11/8, 5–8 PM

◊ **Composite Materials**

Composites are used in a variety of different fields, from aircrafts and military applications, to construction and civil infrastructure. You may be most familiar with composite use in consumer products such as golf clubs, tennis rackets, mobile campers, or surf boards. To work in these industries, you need to understand the materials. This 15-hour workshop is a great introduction to composite materials. Students will learn about core materials, fabrics, epoxy and adhesives, plastics, metals, ceramics, carbon fiber, etc. Students will also learn about patterns, molds, tooling, and supplies needed to create prototypes.

**Fee:** $125  
**Location:** Technology Career Institute  
**Time:** 5 Tuesdays, 10/10–11/14, 6–9 PM  
No class on 10/31.

◊ **Digital Precision Measuring**  
**Using a Portable CMM**

An introduction to metrology using a portable CMM and Verisurf CAD software. Students will learn the basics of inspection, measurement, analysis, and reverse engineering. This course is for individuals working within the advanced manufacturing environment.

**Fee:** $200  
**Admin Fee:** $75*  
**Location:** Technology Career Institute  
**Time:** Tuesdays & Thursdays, 11/28–12/21, 6–9 PM

◊ **Beginning SolidWorks® for 3D Printing**

Learn how to use SolidWorks® mechanical design software to build models of parts, assemblies, and drawings. This 30-hour course will also cover design intent, how to modify previously created features, model interrogation and troubleshooting. The class will demonstrate how to export CAD data for 3D printing, machining, and 2D drawing generation in a variety of formats.

**Fee:** $200  
**Location:** Technology Career Institute  
**Time:** 10 Mondays, 10/9–12/11, 6–9 PM

◊ **Intermediate SolidWorks® Topics for Prototyping**

Once you know the basics of SolidWorks®, take your CAD skills to the next level with this 30-hour intermediate SolidWorks® class geared toward designing for prototyping. This class will expand the student’s knowledge relating to surface model creation, discuss the prototyping options available and the benefits of each option, and what to take into account when designing for prototype creation. The student will take away an in-depth knowledge of prototype options and intermediate modeling tools to create more complex products.

**Fee:** $200  
**Location:** Technology Career Institute  
**Time:** 10 Tuesdays, 10/10–12/19, 6–9 PM  
No class on 10/31.
Additive Mfg Certificate Continued

Student must complete an advanced project.

◊ Advanced Topics in SolidWorks®
SolidWorks® is used throughout the advanced manufacturing and engineering industries. This CAD program has multiple advanced features, which will be covered throughout this course. The topics are focused toward students with prior exposure to CAD modeling, so please make sure you have work experience with parts, assemblies, and drawings. The following areas will be covered: multibody solids, modeling advanced shapes, advanced surfaces, and advanced shaping capabilities.

Fee: $200
Location: Technology Career Institute
Time: Offered again Spring 2018

◊ Introduction to Reverse Engineering
As 3D printers become more common, scanners and the associated software also become more commonly used within the manufacturing and engineering industries. This 20-hour course introduces students to reverse engineering through handheld scanners, the software used to recreate an object, and the process of evaluating and potentially redesigning the reproduced object. We encourage students to have some CAD programming experience prior to enrolling.

Fee: $150
Admin Fee: $50*
Location: Technology Career Institute
Time: Mondays & Wednesdays, 9/13–10/26–9:30 PM

*Tuition is FREE through the DOL funded America’s Promise Grant.
Note: The listed administrative fees will be collected upon registration.

Manufacturing Fundamentals
Are you looking to get into the advanced manufacturing industry because you’ve heard about the need for qualified personnel to replace the retiring baby boomers? Do you already have experience as a supervisor or manager? This course covers the basic skills required to work in the manufacturing field.

- Learn about the manufacturing industry around San Diego County
- Discover the role of different manufacturing processes, as well as the importance of safety, Lean, QC, and the supply chain
- Receive an overview of industry organizations, certifications, and state regulations
- Get hands-on exposure to different metals, tools, manual mills and lathes, CNC operations and programming

Lean Manufacturing I
Lean manufacturing is the systematic method for eliminating waste within a manufacturing system. This initial course will consist of 5S, 8 wastes, deep observation, value stream mapping, A3 one-page corrective action reports, and Kaizen events. This course provides practical application of LEAN tools that anyone can use to identify and minimize waste in their own area of control.

Fee: $150
Location: Technology Career Institute
Time Options:
Saturday & Sunday, 10/7 & 10/8, 9 AM–4 PM
Saturday & Sunday, 11/4 & 11/5, 9 AM–4 PM

Lean Manufacturing II
This second-level course will consist of a refresher of LEAN I and practical applications of standard work, takt time, and balancing work. In addition, there will be an overview of error proofing, job instruction, improving job methods, and building a LEAN team. This course is appropriate for supervisors, team leads and managers who are interested in implementing change within their work environment.

Fee: $150
Location: Technology Career Institute
Time Options:
Saturday & Sunday, 9/16 & 9/17, 9 AM–4 PM
Saturday & Sunday, 12/2 & 12/3, 9 AM–4 PM

OSHA-30

The 30-hour general industry outreach training course is a comprehensive safety training program designed for anyone involved in general industry. The course provides extensive information on OSHA compliance, safety and health hazards in the workplace, employer responsibilities, worker rights, hazard recognition, avoidance, abatement, and prevention. Successful completion of this course results in a Department of Labor 30-hour OSHA General Industry safety card that is federally recognized in all 50 states and never expires.

Quality Assurance Basics for Manufacturing

San Diego County is filled with manufacturing companies. That means thousands of products have to be inspected to ensure the quality meets or exceeds customer expectations. Whether it’s a screw that goes into your body or a solar array on a satellite, it’s critical that the part is made or assembled correctly. This 15-hour workshop provides students with an overview of quality assurance concepts within the manufacturing industry. Course topics include:

- Day-to-day job functions
- Inspection and testing topics
- Material certificates, MIL standards, and verification
- AS9100 overview
- Auditing overview
- Manufacturing processes
- Documentation

Human Resources Certificate Program

Our HR Certificate Program is appropriate for individuals who are not yet HR professionals and for HR veterans who wish to update their skills. This program was developed to enable participants to complete their studies in just three days. This program has been approved for 23 general recertification credit hours toward PHR, SPHR and GPRH recertification through the Human Resource Certification Institute (HRCI). All content is designed to address core HR competencies:

- History and role of human resources in today’s workplace
- Creating and administering an effective HR department
- Compensation, benefits and retirement programs
- Staffing (recruiting & retention) strategies
- Employment law & compliance hot topics
- Effective employee relations and termination

◊ Introduction to Electromechanics

Electromechanical technicians combine knowledge of mechanical technology with knowledge of electrical and electronic circuits. They install, troubleshoot, repair, and upgrade electronic and computer-controlled mechanical systems. In this 60-hour course, students will learn about mechanical systems; solder small electrical boards; build, program and operate a 3D printer; troubleshoot a copier; and more.

Reduced Fee: $500
Location: Technology Career Institute
Time: Tuesdays & Thursdays, 10/3–12/12, 6–9 PM
No class on 11/23.

IPC J-STD-001 Certification Preparation (Students take either Electronic Assembly OR Soldered Electrical/Electronic Assemblies, based on previous experience/knowledge). The IPC J-STD-001 has emerged as the preeminent authority for electronics assembly manufacturing. The standard emphasizes process control and sets industry-consensus requirements for a broad range of electronic products.

◊ Electronic Assembly

This course assumes no previous working knowledge of soldering and electronic assembly, and provides the necessary training to become an electronic assembler at an advanced manufacturing company. Students will work toward IPC certification and the 78 hour course will cover the following topics/skills: Soldering through-hole and surface mount single lead/multi-lead components, soldering multi-pc IC chips, measuring/cutting wire, trimming insulation, crimping, connectorizing, molding and insulating connector ends, wrapping, bundling, shielding, insulating and security cable harnesses, mounding modules, components, connectors, cables, and harnesses into chassis.

Engineering Technician Certificate
Student must complete an advanced project.

Whether you want to work in electronics, aerospace, biotechnology, or breweries, this program can provide with you the necessary training! Engineering technology integrates theory and application in mechanical, electrical and electronic systems, fluid power, automation, robotics, and computer software. Our 600-hour program is 75% hands-on, gets students in front of industry, and trains students in the areas that companies have requested. Students will receive:

- OSHA certification
- National Career Readiness Certification
- 2 days of job shadow experience
- Industry tours and guest speakers
- Career Readiness Bootcamp
- Work Skills Navigator support throughout the program and after graduation

Students will experience an accelerated program designed to prepare them with the skill sets that will qualify them to move right into entry-level positions with local industry. Or, if you’re interested in getting your degree (or already have your degree), this is the perfect supplement to enhance your education.

Fee: $6,750. GI Bill® and WIOA funding approved. Tuition is FREE through the DOL funded America’s Promise Grant (Note: A $335* charge to cover administrative fees will be collected upon registration). Attend our information session to find out more (details on page 15)

Machinist Technology Certificate
Student must complete an advanced project.

Want to work in the aerospace industry, make medical parts that go into your body, or design a new golf club? Gone are the days of the grease-covered, conventional machinist. Today’s machinist must be highly trained with specific skills, working in high-tech manufacturing plants that are clean and innovative. Our nation has a huge shortage of skilled workers. As 77% of skilled baby boomers leave the workforce, San Diego County will need to fill thousands of positions over the next 15 years.

To meet this need, we offer a fast-paced, high-level training program. Students will be able to complete this program in 13-weeks (487 hours), with training in shop math, metal properties, reading blueprints, precision measuring, tooling, G&M codes, and manual and CNC machining. In addition, students will receive:

- OSHA certification
- National Career Readiness Certification
- Opportunities to attend local industry meetings
- 2 days of job shadow experience
- Industry tours and guest speakers
- Career Readiness Bootcamp
- Work Skills Navigator support throughout the program and after graduation

Welding I Certificate

This course is designed to train students to qualify for an American Welding Society (AWS) code. The course will explore basic welding processes and procedures, safety, interpretations of blueprints/shop drawings, metallurgy, different fabrication tools, different welding qualifications, and procedure qualification. In addition, students will receive a significant amount of hands-on training in:

- OFC/OFW (oxyfuel cutting/oxyfuel welding)
- SMAW (shielded metal arc welding)
- GMAW (gas metal arc welding)
- FCAW (flux core arc welding)
- GTAW (gas tungsten arc welding)

**Hydraulic & Pneumatic Systems**

Hydraulic systems use a liquid, such as oil or water, while pneumatic systems use gas, such as air or nitrogen. This hands-on course introduces fluid power as an effective means of transferring, controlling and converting energy, its advantages, disadvantages, and modern usage within advanced manufacturing. Learn how to operate, maintain and troubleshoot equipment and systems safely and efficiently.

Fee: $200  
Location: Technology Career Institute  
Time: Tuesdays & Thursdays, 9/5–9/28  
5:30–8:30 PM

**MATLAB I**

MATLAB is a scientific computing language and program platform widely used throughout industry. It is designed to simplify rapid development and prototyping of highly intensive applications. MATLAB is used in robotics, PLC design, electrical engineering, economics, financing, neural networks, video processing, image processing, data acquisition and more. You will learn to build your own functions based on processing audio signals and images. Finally, you will learn to use the various toolboxes available in the student version of the software.

Note: Students should have a strong basic math background and basic programming knowledge.  
Fee: $175  
Location: Technology Career Institute  
Time: 5 Saturdays, 9/9–10/7, 12–5 PM

**PLC Programming I**

Programmable Logic Controller (PLC) systems have evolved to become the central component to most automation systems today. Learn the basic skills to program, troubleshoot and configure PLC-based automation installations. Allen Bradley and Siemens are two systems commonly used within the manufacturing and engineering industries. Take one or both courses to gain a foundation in PLCs.

Note: A basic understanding of electrical circuitry is strongly recommended.  
Fee: $150 each  
Location: Technology Career Institute  
Time: 4 Saturdays, 10/14–11/4, 12–5 PM  
Allen Bradley Software  
Time: 4 Saturdays, 11/18–12/16, 12–5 PM

**NEW Introduction to the Internet of Things (IoT)**

IoT refers to the connection of devices to the Internet. Cars, kitchen appliances, and heart monitors are all examples of current consumer products connected through the IoT. According to Business Insider, there will be more than 24 billion IoT devices by 2020. That’s approximately four devices for every person on the planet. About $6 billion is anticipated to flow into IoT solutions. In this 15-hour introductory course, students will be exposed to four elements of industrial Internet of Things:

- Physical monitoring hardware  
- Device programming  
- Internet communication via ISP  
- Creating data displays

Fee: $100 Admin Fee: $30*  
Location: Technology Career Institute  
Time: 5 Thursdays, 10/12–11/9, 6–9 PM

*Tuition is FREE through the DOL funded America’s Promise Grant.  
Note: The listed administrative fees will be collected upon registration.

**Real Estate License Program**

Now an accelerate 4 month program, includes licensing exam preparation!

The Real Estate program provides the perfect training for those students planning to enter the real estate profession, as well as opportunities for those already working in real estate and related areas to increase their knowledge in the field. MiraCosta’s Real Estate program has moved to the Community Education and Workforce Development department and will no longer offer college credit. However, the duration of the course has been shortened to 160 hours in just 4 months and includes testing prep and the opportunity to take the real estate exam at the end of the class. Career options include real estate sales, property management, appraising, brokerage and mortgage services.

**Course includes:** Real Estate Principles, Real Estate Practice, Legal Aspects of Real Estate, Mastering Real Estate Math, Exam Preparation.

All licensing to become a real estate salesperson is conducted by the California Department of Consumer Affairs Bureau of Real Estate (BRE). To obtain a California Real Estate Salesperson license, candidates must first qualify for and pass a written examination. For current information about state licensing, go to: www.bre.ca.gov

**Required Textbooks:** California Real Estate Principles 14th Edition (Approx. $80)  
Mastering Real Estate Mathematics 7th Edition (Approx. $9)

Security Programs

We provide training to civilians, active duty/reserve military, veterans, law enforcement, and protection specialists. Our courses can be taken individually or grouped together. Our training pipelines produce highly trained protection specialists suitable for duty in non-permissive environments or to serve on professional, corporate, and celebrity protection teams.

Corporate & Celebrity Protection 8-Day Training
This is the ideal starting point for those wishing to get into the protection business or those transitioning from military or law enforcement, or for high threat protection specialists/WPS/PSD wanting to add corporate and celebrity protection to their existing knowledge and skill sets. Students will run complete details, including detail planning, advance work, site and client assessments, team brief, client brief/interview and providing 24-hour coverage for your assigned client(s).

High Risk Medic 6-Day Training
Whether you are working in the U.S. or abroad, well-rounded medical training can be the difference between life and death. Many people do not have time to attend lengthy EMT or paramedic courses, not to mention the opportunity to become a military medic. This course was designed with this in mind and covers the most important life-saving aspects of all these emergency medical professions.

High Threat Protection 19-Day Training
The HTP course bridges the gap between conventional domestic protective operations and war-zone PSD work. This course provides the training, knowledge, and skill sets to be a proficient protective team leader/member in all threat areas by focusing on one of the most challenging protective environments, the high threat-low profile area of operations.

Over the next year, we will be rolling out the following new programs:
- Advanced High Risk Protection
- Air Travel Threat Mitigation Training
- Crisis Management Negotiator
- Designated Defensive Marksman
- International Security Advisor
- Lone Protector Training
- Protective Security Driving
- Remote Security Operations
- Surveillance Detection/Counter Surveillance Program

For class times, dates and more information, go to [htpscourse.com](http://htpscourse.com). Our programs are approved for GI Bill®, WIOA, and other funding options. Give us a call at 760.795.6822 to find out more.

Become a Notary Public

New Laws This Year!
Making extra money is a great idea and it shows your amazing initiative. Establish yourself as a notary public, earn additional income and provide a service to your community. Notary skills are valuable in almost any industry: real estate, legal, medical, and banking to name just a few. This six-hour state-approved seminar gives you the knowledge to pass the exam and practice as an effective notary. You will find out about new legislation, how to pass the test (must be taken every four years), identify document signers, keep a journal, fill out certificates and avoid lawsuits. After becoming a notary, train to become a loan signing agent and make $200 to $400 per signing. You’ll be a part of a rewarding and lasting career. Must be at least 18 years old and have a clean record.

Note: You are automatically registered for the official state exam directly following the seminar. See box to the right regarding the notary test and fee. Due to state regulations, no one will be admitted to the classroom after 8:30 AM. In addition, you must be on time when returning to the classroom from a break. Refunds will not be issued.

Fee: $99
Supplies: $35 material fee will be collected in class.
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3103
Time: 1 Saturday, 12/2, 8 AM–6 PM

Renewing Notaries
Need to renew your notary commission? We’ll feature the new state laws passed this year and give you a brush-up on general law to make sure you haven’t fallen into any bad habits. Your commission must be current to be eligible for the three-hour seminar. Renewing notaries must take the exam and submit livescan fingerprints again. A six-hour approved course must be taken first.

Note: You are automatically registered for the official state exam directly following the seminar. See box regarding the notary test and fee.
Fee: $50
Supplies: $35 material fee will be collected in class.
Location: Oceanside Campus, Room 3103
Time: 1 Saturday, 12/2, 12:45–6 PM

Notary Testing
For those students who need just the notary exam—either preregister with MiraCosta College Community Education or pay at the door. A six-hour approved course must be completed before you are eligible to take the notary exam (see box regarding the notary test). See box regarding the notary test and fee. Due to state regulations, no one will be admitted to the classroom after 8:30 AM. In addition, you must be on time when returning to the classroom from a break. Refunds will not be issued.

Fee: $25
Location: Oceanside Campus, Room 3103
Time: 1 Saturday, 12/2, 3:45–6 PM

For regular notary, renewing notary, and those taking just the test, Cooperative Personnel Service will register you for the exam from 3:45–4:45 PM. The exam will be from 4:45–5:45 PM. If you are taking the exam, you will need the following:
$40 check made payable to “Secretary of State,” current CA driver’s license with photo or state-issued ID card, a 2”x2” color photo of yourself, and two #2 pencils. If you took your notary class online, you MUST have your certificate of completion with you. Fingerprints are required after you pass the exam. Serious convictions may disqualify applicants.

Fee: $99
Supplies: $35 material fee will be collected in class.
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3103
Time: 1 Saturday, 12/9, 10 AM–4 PM

Become a Certified Loan-Signing Agent
Discover failproof methods to complete the notarization of each loan package. A loan signing agent notarizes loan packages for clients who are purchasing or refinancing homes. In our seminar, you’ll learn simple steps to ensure success with each client. We’ll cover document preparation and effective communication before, during, and after the signing. We’ll also teach you how to usher clients through the process with the awareness of which issues you are allowed to address or which ones you must refer to the lender. Unlike most online loan signing classes that only teach you to recognize documents, our seminar also gives you hands-on, practical experience that is invaluable to new agents. You not only learn how to recognize each document in a loan package, but how to handle tricky situations, how to interact with clients and signers, and how to find business!

Fee: $99
Supplies: $40 material fee and a $20 certificate fee will be collected in class.
Instructor: Notary Public Seminars, Inc.
Location: Oceanside Campus, Room 3103
Time: 1 Saturday, 12/9, 10 AM–4 PM

Estate Planning Essentials

The most essential part of your estate plan is the needs of your beneficiaries. Understanding their needs will guide your plan. This class allows you to explore how the different planning tools will help you meet the needs of your beneficiaries. While trusts will be highlighted, you will learn why a trust is not always the best way to distribute certain assets. You will learn about taxes, legal fees and how to preserve important family relationships. Gain insights, methods and techniques from a friendly, approachable and experienced attorney and educator about planning for your estate, your health care and your finances.

Fee: $39. Early Bird Special $35 (Register BEFORE 9/28 for this rate)
Instructor: Bob Ayers
Location: San Elijo Campus, Room 307

Fun in the Sun: Downtown Santa Monica 3rd street Promenade & Venice Beach Boardwalk

Saturday, September 16

Join us as we visit Downtown Santa Monica’s 3rd Street Promenade where you can eat, shop, and play in this laid-back beach city with world class shopping. Explore the 8.3 square miles worth of retail shops, restaurants, and attractions. Located just a half-mile walk from 3rd Street, you can get your feet wet on the sandy beach or take a stroll down the famous Santa Monica Pier to ride the Ferris wheel and historic Hippodrome carousel. Enjoy the interactive exhibits at the aquarium located below the carousel or, for the enthusiastic shopper, visit the many unique and well-known shops throughout the area. Afterwards, stroll the promenade or pull up a bench for some good-old-fashioned people watching. While shopping on 3rd Street Promenade be sure to catch a glimpse of the musical street performers. But the fun doesn’t end here. Hop back on the bus for a quick stop at Venice Beach. Venice Beach continues to be an important Los Angeles cultural center. Here, you will end the day with a unique shopping experience and a sophisticated afternoon of art and music.

L.A. Fashion/Jewelry District & Farmer’s Market Shopping Extravaganza

Saturday, October 7

Wouldn’t it be wonderful to be chauffeured around L.A. spending the day shopping at all the best places with the best bargains? Well, now is your chance to enjoy a full day of “shop till you drop” while our luxury bus takes you everywhere. We will start our day (1-1/2 hours) at the Jewelry District where you can find some of the best deals on gold and diamonds in the world. Located a few miles away is the L.A. Fashion District (3 hours), where you can find the latest trends at 30-70% off the retail price. There are over 1,000 stores, from flowers to textiles, to apparel and accessories. You can also find amazing and inexpensive lunch foods at almost every corner to sustain you through the rest of the day. Because the Fashion District has so many areas, we will provide you with a detailed map so you can find your way to the exact shops you wish to visit.

Our last stop of the day will be at the L.A. Farmer’s Market. This farmer’s market is more like an international gourmet bazaar with lots of fun boutiques thrown in. So put your feet up and let us do the driving all the way home!

Fee: Book Early for $69. For booking made after 9/23, fee will increase to $89.

Explore the Presidency: Ronald Reagan Museum
(Includes Special Exhibit: Interactive! The Exhibition)
Saturday, November 4

Plunge into our Nation’s rich history at the Ronald Reagan Library. Our day begins at the Simi Valley town center where guests can enjoy a no-host lunch at one of the many restaurants available. After lunch we will visit the Ronald Reagan Library where guests can admire the magnificent structure overlooking the Pacific Ocean. The view is sure to please guests, so be sure to bring your camera! Once inside, guests can view exhibits, such as the Oval Office replica and a six-ton piece of the Berlin Wall.

The special Interactive Exhibition is a hands-on, immersive journey of innovation for the young-to-the young-at-heart. Examine how popular culture has influenced modern technology and the ways we live, work, move, connect and play. Then, hop aboard the Air Force One—the aircraft that carried seven of our nation’s presidents. We will spend 3 hours at the museum to give guests plenty of time to view all of the exciting exhibits and artifacts from our nation’s 40th President. Rediscover the values and legacy that thrives at the Ronald Reagan Library.

Fee: Book Early for $89 (Includes entrance fee to Ronald Reagan Museum). For booking made after 10/14, fee will increase to $105.

Spectacular Los Angeles: Visit Hollywood & Beverly Hills Rodeo Drive
Saturday, December 2

Explore the heart of Los Angeles as we begin our tour with the most famous theatre in the world, the Chinese Theatre in Hollywood. You’ll find the famous forecourt as you gaze down at the stars’ footprints, handprints and autographs immortalized in the legendary cement. Be sure to watch out for Elvis, Michael Jackson or Marilyn Monroe while you visit the few nearby gift shops. Then, hop back on the bus as we head out to Beverly Hills Rodeo Drive.

Beverly Hills is known around the world as one of the most fashionable places to shop. With more than 100 world-renowned stores and hotels comprising its three magnificent blocks within the Golden Triangle, it’s easy to become lost in the street’s splendor and charm. Enjoy window shopping or bring your wallet to shop at the same stores as your favorite Hollywood stars.

Whether you just want to tour Los Angeles or get some holiday shopping done, this is a great trip that you won’t want to miss!
