

Retention Services

Tutoring and Academic Support Center

Annual Report 2020 – 2021

Annual Report Summary

The Retention Services Department and Tutoring and Academic Support Center (TASC) enhances student retention and success by providing assistance to students through innovative academic support services. This Annual Report provides a snapshot of our service utilization and outcomes. The 2020-21 academic year was the year of the COVID-19 pandemic. All courses and services were offered online.

We employed a motivated staff of para-professionals, faculty, and staff. Our team of 25 employees reflects the diversity of the district. In the 2020 - 2021 year, TASC employed 22 tutors. The Tutoring and Academic Support Center had 492 individual credit appointments attended by 156 students in approximately 45 courses. The CLC had 1,179 appointments serving 184 students. TASC began participating in STAR-CA in the fall of 2019. MiraCosta tutors had 51 contacts in 4 courses, and one MiraCosta student utilized STAR for assistance in Spanish.

Drop-in tutoring was offered in Accounting, Economics, CSIT, MAT, Music and Sociology. Over 52 students were served for 183 contacts. Of the students utilizing drop-in tutoring, 52% seek drop-in help within the first 8 weeks of the semester. Student Success Workshops served 800 students for 840 contacts.

Embedded tutoring was offered in 24 sections serving 381 enrolled students in fall and 20 sections serving 224 enrolled students in spring.

Academic Success Coaching (ASC) served 29 students for 35 contacts. Academic Success coaches were assigned to support Academic and Career Pathways as mentors. The ASC focuses on helping students with the hidden curriculum such as:

Coaching: Goal setting, identifying sources of motivation, developing habits that advance academic outcomes,

Emotional Intelligence: Encouraging self-reflection of emotions that encourage/hinder academic success, learning to turn “challenges” into learning opportunities, how to create meaningful relationships with peers, staff and faculty,

Self-Awareness: Building strategies to hold oneself accountable for achieving goals, understanding interests and how they can translate to academic success, developing skills to advocate for oneself,

Classroom/Campus Navigation: identifying classroom expectations, how to form study groups with peers, gaining an understanding of support services and how to seek out services,

Study Skills: Building note-taking and organizational skills, creating effective study habits.

Adapted from Smith, B. (2007). *Mentoring at-risk students through the hidden curriculum of higher education*. New York, NY: Lexington Books.

Data derived from students over a three year period sustained a college success rate (earn a grade of C, pass, or better) of 86% for students receiving appointment tutoring and a rate of 68% for students not receiving tutoring. The student persistence rate (semester to semester retention) over a 3 year period is 76% for students receiving appointment tutoring and is 63% for students not receiving tutoring. Of students who seek tutoring, 48% do it within the first 8 weeks of the semester. As the data demonstrates, tutoring does make a positive difference for students who take advantage of the various academic support services offered.

Successful Course Completion and Retention

Tutoring makes a positive difference for students in terms of both successful course completion and retention. Successful course completion is defined as earning an A, B, C or P in a course, whereas retention is defined as any student who does not withdraw from the class. The average successful course completion rate for tutored students is 86% compared to 68% for un-tutored students. The average successful course completion rate of students who attend drop-in tutoring is 94% compared to 73% for students who do not attend drop-in tutoring. The average retention rate is 14% higher for students who seek appointment or drop-in tutoring.

Please note that due to the pandemic, spring 2020 data for success and retention is slightly higher than it is normally. This is because the many students who withdrew following the pandemic were given an EW and EW isn't counted in success and retention; it decreased the sample of enrollments significantly and we didn't get the variability in W's and F's we usually see in any normal semester.

Successful Course Completion Rates

By appointment

	Fall 2018	Spring 2019	Fall 2019	Spring 2020	Fall 2020	Spring 2021
Tutored	80%	73%	74%	74%	81%	91%
Un-tutored	68%	69%	67%	71%	67%	69%

By drop-in

	Fall 2018	Spring 2019	Fall 2019	Spring 2020	Fall 2020	Spring 2021
Drop-in student	76%	77%	81%	83%	94%	93%
Not a drop-in student	68%	67%	67%	72%	74%	72%

Retention Rates

By appointment

	Fall 2018	Spring 2019	Fall 2019	Spring 2020	Fall 2020	Spring 2021
Tutored	87%	86%	82%	83%	86%	96%
Un-tutored	82%	80%	80%	80%	77%	79%

By drop-in

	Fall 2018	Spring 2019	Fall 2019	Spring 2020	Fall 2020	Spring 2021
Drop-in student	82%	90%	90%	87%	97%	100%
Not a drop-in student	81%	80%	79%	83%	82%	83%

Student Persistence Data

Tutored students also persist at a 13% higher rate than un-tutored students. On average over the past 3 academic years, tutored students persisted at 76% whereas un-tutored students persisted at 63%. Students who attended drop-in tutoring persisted at 75% whereas students who did not attend drop-in tutoring persisted at 63%. Persistence is defined as continuous enrollment from one primary semester to the next.

Primary Term Persistence

By appointment

	Tutored	% Persisted		Overall	% Persisted
Fall 2018	196			14,111	
Spring 2019	146	74.49%		7,771	55.07%
Fall 2019	154			13,452	
Spring 2020	126	81.82%		9,136	67.92%
Fall 2020	80			12,308	
Spring 2021	58	72.50%		8,024	65.19%

By drop-in

	Drop-in	% Persisted		Overall	% Persisted
Fall 2018	166			14,111	
Spring 2019	121	72.89%		7,771	55.07%
Fall 2019	112			13,452	
Spring 2020	96	85.71%		9,136	67.92%
Fall 2020	40			12,308	
Spring 2021	27	67.50%		8,024	65.19%

On average for the past 3 academic years, un-tutored and tutored students earn A's, B's and C's at a similar rates. However, the withdrawal rate is 7% lower for tutored students than for un-tutored students. The data shows that seeking tutoring is keeping students from withdrawing.

Not a drop-in student	2.50	2.47

Office of Research, Planning & Institutional Effectiveness 2021

Of students who seek appointment tutoring, 48% do it within the first 8 weeks of the semester.

Of students who seek drop-in help, 52% do it within the first 8 weeks of the semester.

1. Late start vs. full term courses are not taken into consideration
2. "First" appointment is by course. So a student taking multiple courses is counted once per course.
3. No differentiation between students who need help on a single concept vs those who need more in-depth assistance.
